

July 14, 2026

Honorable Delegates of the 25th Navajo Nation Council
Navajo Nation Council
P.O. Box 3390
Window Rock, AZ 86515

RE: Resolution No. CJY-33-26: An Act Relation to the Law and Order, Resources and Development, Budget and Finance, and Naabik'iyáti' Committees, and the Navajo Nation Council; Amending Council Resolution CJA-05-26 Which Enacted the "Capital Development Financing Act" at 12 N.N.C. §§ 3201 Et Seq. and Established the "Capital Development Financing Fund" ("CDFF"); Authorizing Refinancing, Restructuring, and Reimbursement Financing Transactions Secured By the CDFF; Appropriating \$75,546,678.33 From the Unreserved, Undesignated Fund Balance ("UUFB") to the Navajo Nation Broadband Office and Approving the Broadband Infrastructure Projects Expenditure Plan; Authorizing Use of First Financial Proceeds Secured with the CDFF to Reimburse the UUFB; Approving Such Broadband Projects for Inclusion in the First CDFF Financing Project Listing and Appropriating an Additional \$169,071,259.67 of CDFF Financing Proceeds For Broadband Projects for a Total of \$244,617,938.00 Approving Judicial Branch and Division of Public Safety Priority Projects for Inclusion in the First CDFF Financing Project Listing and Appropriating an Additional \$162,662,830 of CDFF Financing Proceeds for Judicial Branch and Division of Public Safety Priority Projects.

Dear Honorable Members of the 25th Navajo Nation Council:

Today, I am proud to sign Resolution CJY-33-26 into law.

This Resolution funds the Broadband Infrastructure Projects Expenditure Plan, as developed by the Navajo Nation Broadband Office. This plan is the most significant commitment our Nation has ever made to broadband infrastructure, and it deserves the full backing of my Administration, this 25th Navajo Nation Council, and every Chapter across the Nation.

This resolution authorizes an immediate advance of \$75,546,678.33 from the Unreserved, Undesignated Fund Balance to the Navajo Nation Broadband Office to fund Year 1 projects. Connectivity is no longer a luxury — it is basic infrastructure, as essential as roads, electricity and water. This Plan will bring broadband to communities that have never had it, and it will do so with a financing structure that protects the Nation's General Fund while getting shovels in the ground now. The goal is 5G coverage across 88% of the Nation by 2028!

I am proud to put my signature on this Resolution. **I commend the leadership of Broadband Manager Sonia Nez for her work in developing this Plan and obtaining the needed funding.**

I expect the Office of the Controller to disburse these UUFB funds to the Broadband Office immediately and without delay. There is no reason for this money to sit unspent while our people wait for connectivity.

This Resolution also paves the way to fund the Shiprock Judicial Public Safety Complex, which will include the Medical Examiner's facility, and the Dilkon Public Safety Building. There is an additional appropriation of \$162,662,830 for these facilities. The funding will come from the first allocation of Financing Proceeds secured by the Capital Development Financing Fund. We expect to secure the first Financing Proceeds in the next nine to twelve months. I commend the amendments adopted by the Navajo Nation Council and the advocacy of Division Director Delores Greyeyes.

I am very proud of the Capital Development Financing Fund. Long before I ever thought about becoming President, Sean McCabe, now the Controller, and I discussed this idea. We knew that the Nation could make its dollars work harder and better. We are seeing that idea come to fruition today.

I commend the 25th Navajo Nation Council for its unanimous vote in favor of this Resolution, and every Chapter that passed a resolution in support.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Buu Nygren', with a long horizontal flourish extending to the right.

Dr. Buu Nygren, *President*
THE NAVAJO NATION

RESOLUTION OF THE
 NAVAJO NATION COUNCIL
 25th NAVAJO NATION COUNCIL -- Fourth Year, 2026

AN ACT

RELATING TO THE LAW AND ORDER, RESOURCES AND DEVELOPMENT, BUDGET AND FINANCE, AND NABIK'ÍYÁTI' COMMITTEES, AND THE NAVAJO NATION COUNCIL; AMENDING COUNCIL RESOLUTION CJA-05-26 WHICH ENACTED THE "CAPITAL DEVELOPMENT FINANCING ACT" AT 12 N.N.C. §§ 3201 *ET SEQ.* AND ESTABLISHED THE "CAPITAL DEVELOPMENT FINANCING FUND" ("CDFF"); AUTHORIZING REFINANCING, RESTRUCTURING, AND REIMBURSEMENT FINANCING TRANSACTIONS SECURED BY THE CDFF; APPROPRIATING \$75,546,678.33 FROM THE UNRESERVED, UNDESIGNATED FUND BALANCE ("UUFb") TO THE NAVAJO NATION BROADBAND OFFICE AND APPROVING THE BROADBAND INFRASTRUCTURE PROJECTS EXPENDITURE PLAN; AUTHORIZING USE OF FIRST FINANCING PROCEEDS SECURED WITH THE CDFF TO REIMBURSE THE UUFb; APPROVING SUCH BROADBAND PROJECTS FOR INCLUSION IN THE FIRST CDFF FINANCING PROJECT LISTING AND APPROPRIATING AN ADDITIONAL \$169,071,259.67 OF CDFF FINANCING PROCEEDS FOR BROADBAND PROJECTS FOR A TOTAL OF \$244,617,938.00 APPROVING JUDICIAL BRANCH AND DIVISION OF PUBLIC SAFETY PRIORITY PROJECTS FOR INCLUSION IN THE FIRST CDFF FINANCING PROJECT LISTING AND APPROPRIATING AN ADDITIONAL \$162,662,830 OF CDFF FINANCING PROCEEDS FOR JUDICIAL BRANCH AND DIVISION OF PUBLIC SAFETY PRIORITY PROJECTS

BE IT ENACTED:

SECTION ONE. AUTHORITY

- A. The Law and Order Committee is a standing committee of the Navajo Nation Council with the enumerated power to review and make recommendations to the Navajo Nation Council on proposed amendments to enactments to the Navajo Nation Code. 2 N.N.C. § 601(B)(14).
- B. The Resources and Development Committee is a standing committee of the Navajo Nation Council with oversight authority over chapter activities, information technology, and telecommunications, as well as the responsibility to promote, review, coordinate, and approve projects to be financed by funds designated for capital improvement. 2 N.N.C. §§ 500(C) and (C)(5).
- C. The Budget and Finance Committee is a standing committee of the Navajo Nation Council with the enumerated powers to review and recommend to the Navajo Nation Council the budgeting, appropriation, investment, and management of all funds and to

promulgate rules and regulations related to contracting and financial matters. 2 N.N.C. §§ 300(B)(1) and (2).

- D. The Naabik'íyáti' Committee is a standing committee of the Navajo Nation Council with the responsibility to hear proposed resolution(s) that require final action by the Navajo Nation Council. 2 N.N.C. § 164(A)(9).
- E. The Navajo Nation Council is the governing body of the Navajo Nation. 2 N.N.C. § 102(A).
- F. The Navajo Nation Council may adopt and approve supplemental appropriations to the Annual Comprehensive Budget during the fiscal year. Supplemental appropriations of General Funds within the current fiscal year are permitted, if and when additional sources of revenues above and beyond the initial or current revenue projections are projected and which are also in excess of the reserve amount set forth at 12 N.N.C. § 820(J). 12 N.N.C. § 820(L).
- G. Title 12 of the Navajo Nation Code places additional restrictions on supplemental appropriations from the UUFB, including:
 - 1. Payment of recurring government operating expenses shall be from recurring revenues, and payment of nonrecurring expenses shall be from nonrecurring revenues. 12 N.N.C. §§ 820(E) and 820(F).
 - 2. Specifically, the UUFB shall not be used for recurring government expenditures or operations. 12 N.N.C. §§ 820(J) and 820(L).
 - 3. Nonrecurring revenues may be use only after the Controller determines whether or not such revenues are subsidizing an imbalance between the Navajo Nation's recurring revenues and expenditures, and government expenditures shall only be authorized if a long-term (3-year to 5-year) forecast shows that the operating deficit will not continue; otherwise, nonrecurring revenues will be added to the UUFB. 12 N.N.C. § 820(F).
 - 4. The above provisions in Title 12 may be amended or waived only by a two-thirds vote of the full membership of the Navajo Nation Council. 12 N.N.C. § 820(F) and 12 N.N.C. § 880.

5. All UUFB funding requests must be reviewed by the Controller to ensure compliance with 12 N.N.C. § 820(L). 12 N.N.C. § 820(F).
6. All UUFB funding requests must be submitted to the Office of Management and Budget for a budget impact analysis. 12 N.N.C. § 820(M).

SECTION TWO. FINDINGS

- A. The intent and purpose of this Action is to amend Council Resolution CJA-05-26 (hereinafter "CJA-05-26"), which enacted the Capital Development Financing Act (the "CDFA"), codified at 12 N.N.C. §§ 3201 et seq., and established the Capital Development Financing Fund ("CDFF"). The CDFA provides that the CDFF is to be pledged as the sole source of security and repayment for financing the acquisition, development and construction of Capital Projects, as those projects are defined in the CDFA. The amendment to the CDFA is for the purpose of adding a definition of "Financing Transaction" in order to clarify that "Financing Transaction" includes refinancing and restructuring transactions.
- B. Additionally, the intent and purpose of this Action is: (1) to appropriate \$75,546,678.33 from the UUFB to the Navajo Nation Broadband Office for the Broadband Infrastructure Projects Expenditure Plan; (2) to approve the Broadband Infrastructure Projects Expenditure Plan attached hereto as **Exhibit A**; (3) to approve the broadband projects for inclusion in the CDFF Capital Development Strategic Plan and the first Financing Project Listing; (4) to authorize the use of the first Financing Proceeds secured with the CDFF to reimburse the UUFB; and (5) to appropriate an additional \$169,071,259.67 of CDFF Financing Proceeds for broadband projects included in Year 2, Year 3, and Year 4 of the Broadband Infrastructure Projects Expenditure Plan.
- C. The Navajo Nation Council hereby finds that the financing transactions contemplated by the CDFA, codified at 12 N.N.C. §§ 3201 et seq., included refinancing and restructuring transactions and reimbursement financing. However, for greater clarity, Navajo Nation Council finds that the CDFA should now be amended to include a definition of "Financing Transaction" that expressly includes refinancing and restructuring transactions and transactions to finance reimbursement of advance funding from other sources.

- D. In 2022, the Navajo Nation enacted CJN-29-22, incorporated herein by reference, which allocated one hundred twenty million dollars (\$120,000,000) of Navajo Nation Fiscal Recovery Funds ("NNFRF") to the NNFRF Broadband Infrastructure Projects Expenditure Plan. In 2024, the Navajo Nation enacted CMY-28-24, incorporated herein by reference, to comply with the U.S. Treasury expenditure deadlines and reallocated unobligated NNFRF from Broadband Projects to the Revenue Replacement Reserve General Fund Committed Fund Balance. In 2026, the Navajo Nation amended CMY-28-24 through CJA-05-26 to retain funds in the Revenue Replacement Reserve for Delegate Region Project Plans, and to specify that "[t]he first allocation of Trust Fund Financing Proceeds shall be for broadband infrastructure projects qualifying under the criteria of the Trust Fund as Eligible Capital Projects eligible to be included in the Capital Development Strategic Plan and a Financing Project Listing[.]" CJA-05-26 Section Three (D).
- E. The Navajo Nation Broadband Office has developed a plan for capital development of broadband infrastructure projects on the Navajo Nation. This plan, referred to as the Broadband Infrastructure Projects Expenditure Plan, is attached hereto as **Exhibit A**. The Navajo Nation Broadband Office is requesting a total of \$244,617,938.00 to fund such projects over a period of four years.
- F. The Navajo Nation Council now finds that there is an urgent need to fund and to accelerate delivery of high-priority broadband infrastructure projects on the Nation. The Navajo Nation Council determines it is most efficient to now utilize funds from the UUFB to provide immediate funding for these broadband infrastructure projects rather than delaying the development of these projects for the time necessary to fund the projects through the CDFF, which will require the arrangement of financing and the approval of the Capital Development Strategic Plan and the first Financing Projects Listing.
- G. The Navajo Nation Council finds it is in the best interest of the Navajo Nation to approve the Broadband Infrastructure Projects Expenditure Plan set forth in **Exhibit A**.
- H. The Navajo Nation Council finds it is in the best interest of the Navajo Nation to find that the projects in the Broadband Infrastructure Projects Expenditure Plan for Years 1 through 4 are "Eligible Capital Projects" under the CDFA, and that such broadband projects shall be included in the Capital Development

Strategic Plan and Database, and in the first Financing Project Listing.

- I. The Navajo Nation Council finds it is in the best interest of the Navajo Nation that CMY-28-24, as amended by CJA-05-26, should again be amended to provide that, under the CDFA, the first allocation of Trust Fund Financing Proceeds shall be for broadband infrastructure projects eligible to be included in the Capital Development Strategic Plan and a Financing Project Listing in the amount of \$244,617,938.00, including \$75,546,678.33 to reimburse the UUFB for the appropriation of temporary funding for Year 1 projects in the Broadband Infrastructure Projects Expenditure Plan, and \$169,071,259.67 of Financing Proceeds to fund projects for Years 2, 3, and 4 in the Broadband Infrastructure Expenditure Plan.
- J. The Navajo Nation Council finds it is in the best interest of the Navajo Nation to approve an appropriation of \$75,546,678.33 from the UUFB to the Navajo Nation Broadband Office for Year 1 projects in the Broadband Infrastructure Projects Expenditure Plan.
- K. The Navajo Nation Council finds it is in the best interest of the Navajo Nation to approve an appropriation of \$75,546,678.33 from the first Financing Proceeds secured by the CDFF under the CDFA; and once the first financing transaction is completed and Financing Proceeds are secured by the CDFF, such Financing Proceeds shall be used to reimburse the UUFB in the amount of \$75,546,678.33 for Year 1 projects in the Broadband Infrastructure Projects Expenditure Plan.
- L. The Navajo Nation Council finds it is in the best interest of the Navajo Nation to approve an additional appropriation of Financing Proceeds from the first financing transaction in the amount of \$169,071,259.67 to the Navajo Nation Broadband Office for projects in Years 2 through 4 of the Broadband Infrastructure Projects Expenditure Plan.
- M. The Broadband Office has provided the required budget forms for the supplemental appropriation from the UUFB, along with Appendix J - Supplemental Funding Proposal Summary. Budget Forms are attached as Exhibit B.
- N. The Controller has provided a memorandum, as required by 12 N.N.C. § 820(L). The Controller has identified the project funding to the Broadband Office for broadband projects in Year 1 as non-recurring expenditures. The Controller's memo is attached as Exhibit C.

- O. The Office of Management and Budget has provided budget impact analysis memorandum, as required by 12 N.N.C. § 820(M). The OMB memo is attached as **Exhibit D**.
- P. Chapter resolutions supporting the broadband Infrastructure Projects from Aneth Chapter, Chilchinbeto Chapter, Forest Lake Chapter, Indian Wells Chapter, Many Farms Chapter, and Tselani-Cottonwood Chapter are attached as **Exhibit E**.
- Q. The Central Navajo Agency Council resolution supporting the Broadband Infrastructure Projects is attached as **Exhibit F**.

SECTION THREE. AMENDING THE CAPITAL DEVELOPMENT FINANCING ACT.

The Navajo Nation hereby amends Title 12 of the Navajo Nation Code, 12 N.N.C. §§ 3201 *et seq.*, as follows:

TITLE 12. FISCAL MATTERS

CHAPTER 32. CAPITAL DEVELOPMENT FINANCING ACT

§ 3201. Short Title

This Act shall be titled the "Capital Development Financing Act" (hereinafter "Act").

§ 3202. Establishment

There is established the "Capital Development Financing Fund" (hereinafter "Fund").

- A. The Navajo Nation allocates the balance of the Revenue Replacement Reserve funds to this Fund, minus the amount set forth in Section 3 of this Act, which shall remain in the Revenue Replacement Reserve to fund Delegate Region Projects.
- B. The Navajo Nation may make additional appropriations to the Fund from any other sources of revenue that become available to the Nation.
- C. Any monies deposited into or appropriated to the Fund, regardless of source, shall be used only as provided in this Chapter.

- D. Financing Proceeds transferred to the Nation and not held by a bond trustee or banking institution as may be required by documents governing such financings, shall not be deposited into the Fund. Instead, such Financing Proceeds shall be deposited into a separate Navajo Nation account administered by the Office of the Controller and used solely for paying the costs of projects financed with such proceeds. Any proceeds not immediately expended to pay project costs shall be invested in investments permitted by the financing documents and in accordance with the Navajo Nation Master Investment Policy.
- E. The Fund and the Finance Proceeds Account are not subject to 12 N.N.C. § 820(N) and shall be continuing accounts that do not lapse or revert at the end of the fiscal year.

§ 3203. Purpose

The Fund is established for the purpose of providing a dedicated source of security and repayment for transactions entered into for the financing, refinancing, or reimbursement of financing, for the acquisition, planning, design, architecture, engineering, project management, development and construction of Eligible Capital Projects in order to improve the quality of life for the Navajo People for generations to come.

§ 3204. Definitions

All capitalized terms used in this Act shall have the particular meaning set forth below, unless specifically explained otherwise. Terms that are not capitalized shall have their ordinary and plain meaning, unless otherwise explained herein.

- A. "Capital Development Strategic Plan and Database" shall mean a multi-year plan and comprehensive database that identifies and responds to the current and future capital development needs of the Navajo People and the Navajo Nation, as well as the Nation's short-term and long-term priorities for capital development. The Capital Development Strategic Plan and Database shall catalogue and track all Navajo Nation Capital Projects, regardless of funding source or responsible entity, that are already funded and are planned or in-progress, and shall also include a listing of proposed Eligible Capital Projects that qualify to be funded in the future with financing secured through this Fund. The database may also incorporate and include projects in need of funding from other Navajo Nation multi-year infrastructure and/or Capital Project plans, such as the Capital Improvement Plan, Judicial-Public Safety Facilities Fund, Síhasin Fund, Permanent Fund, etc. The

database shall segregate Capital Projects between those that qualify for financing through the Fund and those that do not qualify.

The Capital Development Strategic Plan and Database shall be developed as follows:

1. The Office of the Controller, with support from the Division of Community Development and other internal experts, shall be responsible for developing and maintaining the Capital Development Strategic Plan and Database and evaluating Capital Projects for inclusion in the Strategic Plan and Database. The Office of the Controller may engage external experts to assist in this process, if funding is available.
 2. The Office of the Controller shall review and evaluate proposed Capital Projects which have been recommended by Navajo Nation Council Delegates, and determine whether such projects qualify for inclusion in the Strategic Plan and Database and whether such projects are Eligible Capital Projects that qualify for financing through the Fund;
 3. The Office of the Controller shall provide a written report to the Resources and Development Committee semi-annually, at the end of the second and fourth quarter of each Navajo Nation Fiscal Year, regarding the Strategic Plan and Database.
 4. While all Capital Projects included on a Financing Project Listing shall have been listed in the Strategic Plan and Database, the inclusion of a Capital Project in the Strategic Plan and Database does not guarantee that the project will be funded or included on a Financing Project Listing.
- B. "Capital Projects" for the purposes of this Act are long-term assets with a cost greater than the current Navajo Nation capitalization and useful life thresholds in the following categories:
1. public works such as roads, bridges, dams, waterways, railways, airports, fire stations and similar facilities, as well as repairs, upgrades, renovations and expansions of existing public works;
 2. public utilities and related infrastructure for power transmission and distribution, natural gas, water and

wastewater, and telecommunications and repairs, renovations and expansions of existing public utilities; schools, parks and community facilities, hospitals and health clinics, waste disposal plants, judicial and public safety buildings, and government buildings, as well as repairs, upgrades, renovations and expansions of existing facilities; and

3. any other physical asset, building, or equipment that is designed to provide long-term benefits to the public and that improves the quality of life of the Navajo People.

C. "Costs of Issuance" shall mean all expenses related to the issuance and ongoing administration of any Financing Transaction ~~financing transaction~~, including but not limited to, costs incurred for bond trustees, bond and other legal counsel, financial advisers, banks, underwriters, placement agents and broker dealers, rating agencies, accountants, attorneys' fees, and other professional services needed in connection with any proposed and/or consummated financing.

D. "Eligible Capital Projects" shall mean the acquisition, planning, design, architecture, engineering, development, and construction of Capital Projects which satisfy all criteria set forth below in order to be eligible to be financed with the proceeds of Financing Transactions ~~financing transactions~~ secured by the Fund. The criteria for Capital Projects to be considered Eligible Capital Projects for inclusion on Financing Project Listings include:

1. The Capital Project falls under one or more of the Nation's "Capital Development Priorities," which are priorities based on the critical needs of the Navajo Nation and the Navajo People for the acquisition, planning, design, architecture, engineering, project management, development, and construction, of various types or categories of Capital Projects and shall guide and inform the development of Financing Project Listings. The Nation's Capital Development Priorities (in no particular order) include:

- a. broadband infrastructure projects;
- b. water and wastewater projects;
- c. road projects;

- d. energy and utility infrastructure development projects;
 - e. affordable housing development projects;
 - f. government buildings and facilities;
 - g. Local Capital Projects by or on behalf of Chapters; and
 - h. other types of Regional Capital Projects or Navajo Nation-wide Capital Projects that benefit the Nation as a whole.
2. The useful life of the Capital Project, as determined by the Controller or designee, shall be a minimum of ten (10) years and shall be no less than the length of the term of the applicable Financing Transaction ~~financing transaction~~ that provides the proceeds to finance such project.
 3. The Capital Project shall have minimum project costs of at least \$10 million.
 4. The Capital Project is confirmed to be ready to commence construction within six (6) months of the closing of any Financing Transaction ~~financing transaction~~ secured by the Fund.
 5. The project site has no land restriction problems.
 6. Required clearances and permitting have been completed.
 7. The Capital Project is logistically feasible and viable.
 8. The funding requested is sufficient to complete the Capital Project, or other funding sources for shortfall are already secured.
 9. The Controller, in consultation with necessary advisors and consultants, has determined in writing that the Capital Project is capable of being completed within the term of the financing or within an industry-standard time period, which time term or time periods may vary based on the specific project type, location, scope, complexity, and other project and industry factors.
- E. "Finance Proceeds Account" shall mean a separate Navajo Nation account to hold Financing Proceeds, which shall be administered by the Office of the Controller.

- F. "Financing Proceeds" shall mean proceeds of loans, bonds, or other financings secured by the Fund through Financing Transactions ~~finaneing transaactions~~. Financing Proceeds shall be used solely for paying the costs of Eligible Capital Projects and other eligible costs pursuant to § 3212.
- G. "Financing Project Listing" shall mean the list of Eligible Capital Projects established under § 3209 of this Chapter.
- H. "Financing Transaction" means any transaction to incur debt secured by the Fund, including without limitation, loans, lines of credit, bonds, and other debt structures, entered into for the financing, refinancing, restructuring, or reimbursement of financing, of the purposes set forth in § 3203 of this Act.
- I. "Fund Income" shall consist of all investment earnings (from interest, dividends, earnings from sales, etc.) generated and realized through the investment of the Fund Principal.
- J. "Fund Principal" shall consist of all deposits made to the Fund pursuant to § 3202 of this Chapter and any other amounts deposited into the Fund and designated as Fund Principal by the Controller.
- K. "Local Capital Projects" shall mean Capital Projects to be performed in a Navajo Nation Chapter or Township that solely or primarily benefit residents of such Chapter or Township, such as a Chapter house, a senior center, a Chapter warehouse, housing and bathroom additions for Chapter members, etc.
- L. "Navajo Nation-wide Capital Projects" shall mean large scale Capital Projects that provide benefits and service to multiple Agencies or regions on the Navajo Nation, such as water and wastewater, major roads, and broadband or other utility infrastructure that cross multiple Chapter and Township boundaries and can be widely utilized by many residents of and visitors to the Navajo Nation.
- M. "Regional Capital Projects" shall mean Capital Projects that may be based in one or more locations within the Navajo Nation that will have a public benefit for residents in multiple Navajo Nation Chapters and Townships within a Navajo Nation Council Delegate's District, or across multiple Delegate Districts, or at a Navajo Nation Agency level.

§ 3205. Investment of the Fund

- A. All monies deposited into the Fund shall be subject to the Navajo Nation's Master Investment Policy, as amended, and an investment sub-policy for the Fund recommended by the Navajo Nation Investment Committee and approved by the Budget and Finance Committee, and shall be invested as soon as practicable in accordance with the degree of care exercised by reasonable and prudent managers of investments intended to produce maximum growth of the investments with a high degree of safety necessary to fulfill the purposes and objectives of the Fund.
- B. Management of the investments may be delegated to third party Investment Managers by written contracts recommended by the Navajo Nation Investment Committee, approved by the Budget and Finance Committee, and executed by the Navajo Nation President.

§ 3206. Securing Financing with the Fund

- A. The Controller of the Navajo Nation, in consultation with financial consultants, legal counsel, and other advisors with requisite expertise, shall identify and evaluate financing opportunities such as loans, bonds and other debt structures available for Financing Transactions ~~finaneing transaactions~~ authorized by this Act. The Controller shall report to the Budget and Finance Committee regarding the Controller's findings and determinations regarding options to secure financing with the Fund.
- B. The Controller is delegated the authority to negotiate the terms and conditions of any Financing Transactions ~~finaneing transaactions~~.
- C. As authorized by 2 N.N.C. § 102(G), the Budget and Finance Committee is delegated the authority to approve such Financing Transactions ~~finaneing transaactions~~ and transaction documents recommended by the Controller, including those that require limited waivers of Navajo Nation sovereign immunity as authorized in § 3207 hereunder, as long as the Attorney General has opined in writing that the language waiving sovereign immunity is legally sufficient to protect the Navajo Nation's interests.
- D. The Office of the Controller shall recommend and the Budget and Finance Committee shall approve financing-specific project criteria, if any, for each Financing Transaction ~~finaneing transaaction~~, which may include project evaluation procedures,

type and length of financing, categories of Capital Projects, balance between Local, Regional, and Navajo Nation-wide Capital Projects, parameters for distribution among Delegate Regions, etc.

- E. While the Budget and Finance Committee shall have the delegated authority to approve Financing Transactions ~~finaneing transaactions~~, including financing-specific project criteria and transaction documents recommended by the Controller, the Navajo Nation Council shall approve the Financing Project Listing for each Financing Transaction ~~finaneing-transaaction~~ subject to final action by the Navajo Nation President pursuant to 2 N.N.C. § 221(B) and 2 N.N.C. § 1005(C)(10) - (11).
- F. The Financing Transactions ~~finaneing-transaactions~~ authorized hereunder shall not be general obligations of the Navajo Nation, nor shall such transactions include a pledge of the full faith and credit of the Navajo Nation. The Financing Transactions ~~finaneing-transaactions~~ authorized hereunder shall be secured exclusively by the Fund Principal and/or Fund Income and no recourse shall be had to any other assets of the Navajo Nation.
- G. The Navajo Nation President is authorized to execute and deliver any and all documents necessary for any Financing Transaction ~~finaneing-transaaction~~ after the Budget and Finance Committee enacts a resolution approving such Financing Transaction ~~finaneing-transaaction~~ and such documents.

§ 3207. Limited Waiver(s) of Sovereign Immunity; Delegation to the Budget and Finance Committee

- A. The Navajo Nation Council grants and authorizes limited waivers of sovereign immunity and consents to the arbitration of disputes that are or may be required by, and included in, any Financing Transaction ~~finaneing-transaaction~~ entered into by the Nation under the terms of this Act, subject to the limitations set forth herein, and delegates to the Budget and Finance Committee the authority to finally approve and authorize the specific terms and conditions of such limited waivers of sovereign immunity and consents to arbitration.
- B. The purpose of the grant and authorization of limited waivers of sovereign immunity for the transactions authorized by this Act is to allow lending parties to such transactions to enforce the transaction documents against the Navajo Nation when, and if, necessary.

- C. The Navajo Nation Council delegates authority to the Budget and Finance Committee, with the advice of the Navajo Nation Department of Justice and bond counsel, to approve the terms and conditions of any limited waiver of sovereign immunity granted and authorized by this Act that is to be included in any financing agreement in form and substance sufficient to permit the resolution of disputes, the commencement of actions or proceedings, to permit the arbitration of disputes and to make any financing agreements entered into under this Act the legally valid, binding and enforceable agreements of the Navajo Nation, subject to the following limitations:
1. The limited waiver of sovereign immunity shall apply only to the parties to the financing agreements, their successors and assigns;
 2. The limited waiver of sovereign immunity shall contain only those provisions that are customarily required in commercial financing transactions with federally recognized Indian tribes;
 3. The limited waiver of sovereign immunity and dispute resolution provisions shall specify the law applicable to the financing agreements, which may include federal law where applicable and the law of Arizona, New Mexico, Utah, or New York, as necessary or appropriate;
 4. The limited waiver of sovereign immunity shall specify consent to jurisdiction of the courts of the United States district courts located in the states of Arizona, New Mexico, Utah or New York and all courts of appeal therefrom, the state courts of Arizona, New Mexico, Utah, or New York and all courts of appeal therefrom, and the courts of the Navajo Nation, as may be necessary or appropriate for a particular Financing Transaction ~~financing transaction~~, and;
 5. The limited waiver of sovereign immunity may also specify arbitration as a dispute resolution process and shall provide the manner in which such arbitration shall be conducted.
- D. The grant, consent, authorization and direction for waivers of the Navajo Nation's sovereign immunity in this Act are separate from and independent of the Navajo Nation's Sovereign Immunity Act, the Navajo Nation's Arbitration Act and any other law of the Navajo Nation that may be in conflict with the provisions of this Act and the intent hereof, which conflicting laws are

hereby deemed inapplicable to this Act and any transaction entered into by the Navajo Nation under the authority granted by this Act.

- E. The final terms and conditions of any limited waiver of sovereign immunity authorized and granted by this Act and approved by the Budget and Finance Committee shall constitute the law of the Navajo Nation for purposes of the interpretation, enforcement or performance of any financing agreements entered into under this Act.
- F. Any limited waiver of sovereign immunity granted under this Act shall limit the liability of the Nation to the Fund. No other assets of the Navajo Nation shall be available to pay any obligation secured by the Fund.

§ 3208. Limited Application of Appropriations Act and Bond Financing Act

- A. Section 12 N.N.C. §§ 820(H) of the Appropriations Act, regarding long-term debt, shall not apply to any obligation of the Nation that is secured by the Fund.
- B. The Bond Financing Act at 12 N.N.C. § 1300 *et seq.* shall not apply to this Act, the Fund, financing transactions under this Act, nor Eligible Capital Projects financed in accordance with this Act.

§ 3209. Financing Project Listing

Prior to consummating any Financing Transaction ~~finaneing transaetion~~ secured by the Fund, a Financing Project Listing, consisting only of Eligible Capital Project(s), shall be prepared, approved and incorporated into the expenditure of the proceeds of such Financing Transaction ~~finaneing transaetion~~.

- A. The Financing Project Listing for each Financing Transaction ~~finaneing transaetion~~ shall be developed by the Office of the Controller, with support from internal experts and external consultants, and shall be recommended to the Resources and Development Committee and Navajo Nation Council for approval subject to action by the Navajo Nation President pursuant to 2 N.N.C. § 221(B) and 2 N.N.C. § 1005(C)(10) - (11). In determining what Eligible Capital Projects to include in the proposed Financing Project Listing, the Office of the Controller shall:

1. Consider and evaluate only Eligible Capital Projects that are already included in the Capital Development Strategic Plan and Database and for which the financing can be repaid within the useful life of the Eligible Capital Project.
 2. Hire or engage technical experts to assist in the evaluation of such Eligible Capital Projects, and the costs of such experts may be paid with Fund Income.
 3. Recommend a Financing Project Listing to the Resources and Development Committee and Navajo Nation Council.
- B. Projects included on a Financing Project Listing shall not be changed or modified once a financing has been consummated ~~without~~ except upon the recommendation of the Resources and Development Committee and the approval of the Budget and Finance Committee.
- C. Each Financing Project Listing shall establish a priority for the Eligible Capital Projects on the list. The priority of the Eligible Capital Projects on the list will dictate which Eligible Capital Projects will be funded in the event that the proceeds of any Financing Transaction ~~financing transaction~~ are insufficient to fund all of the Eligible Capital Projects on any Financing Project Listing.

§ 3210. Expenditure of Fund Principal

- A. Until the later of (i) fifteen (15) years after the date of this Act, or (ii) the date on which any debt issued under this Act is no longer outstanding, the Fund Principal shall only be used as follows:
1. To be invested pursuant to the Nation's Master Investment Policy and its applicable sub-policies to generate investment income.
 2. To be pledged to secure financings, the proceeds of which shall be used for the purpose of funding Eligible Capital Projects on any Financing Project Listing.
 3. To pay debt secured by the Fund at maturity (unless such debt is refinanced).
 4. To repay debt secured by the Fund pursuant to any optional redemption date, mandatory redemption date, optional prepayment date, mandatory prepayment date, mandatory purchase date or other date upon which payment of all or a

portion of such debt (whether optional or mandatory) is due or any date on which the making of a payment may be in the best interests of the Navajo Nation to properly manage the Fund Principal and the debt secured by the Fund Principal.

5. To pay all or a portion of any debt, or any fees or other payments required by any documents governing any Financing Transactions ~~finaneing—transaactions~~ secured by Fund Principal upon the occurrence or continuance of an event of default.
 6. To pay any other amounts due by virtue of the terms and conditions of any documents governing any transaction secured by the Fund.
 7. To the extent that Fund Income is insufficient to pay any and all scheduled debt service payments due and payable on any Financing Transaction ~~finaneing—transaaction~~, to pay such scheduled debt service.
 8. To the extent that Fund Income is insufficient therefore, to pay any and all administration/management expenses of the Fund or expenses arising from any proposed or consummated transactions secured by the Fund Principal.
- B. Upon the later of (i) fifteen (15) years after the date of this Act, or (ii) the date on which any debt issued under this Act is no longer outstanding, the Fund Principal may be used for purposes other than those in § 3210(A) only if approved pursuant to a resolution adopted by a seven-eighths (7/8) vote of the full membership of the Navajo Nation Council, subject to action of the President of the Navajo Nation under 2 N.N.C. § 221(B) and 2 N.N.C. § 1005(C)(10) - (11). This provision is not subject to amendment or waiver under § 3215 of this Chapter.

§ 3211. Expenditure of Fund Income

- A. Fund Income shall only be used, as needed, to:
1. Pay any and all debt service on transactions secured by the Fund, including any fees required to be paid under any documents governing such transactions.
 2. To pay expenses incurred for:

- a. the solicitation, negotiation, documentation and consummation of any transaction secured by the Fund;
 - b. advisors or other consultants related to any Financing Transaction ~~financing transaction~~ or the investment and management of the Fund Principal and the Fund Income;
 - c. administrative or other management functions related to the Fund, including Office of the Controller staff personnel costs, or any transaction secured by the Fund; and/or
 - d. experts to assist in the evaluation of whether Capital Projects satisfy the eligibility criteria set forth at § 3204(D) for Eligible Capital Projects.
- B. To the extent that Fund Income exceeds the amount necessary to pay the debt service and costs authorized to be paid with Fund Income under this Section, such excess Fund Income shall be reinvested to earn additional income. The Controller may allocate Fund Income to Fund Principal to the extent that Fund Income exceeds the amount needed to pay scheduled debt service payments and other anticipated costs authorized by this Section for a minimum of five (5) years.
- C. Until the later of (i) 15 years after the date that the Fund is enacted, or (ii) the date on which no transactions secured by the Fund Principal remain outstanding, Fund Income shall not be allocated or expended for direct funding of Capital Projects or other purposes without approval by a seven eighths (7/8) vote of the full membership of the Navajo Nation Council subject to action of the President of the Navajo Nation under 2 N.N.C. § 221(B) and 2 N.N.C. § 1005(C)(10) - (11). This provision is not subject to amendment or waiver under § 3215 of this Chapter.

§ 3212. Expenditure of Financing Proceeds

- A. Proceeds of any Financing Transactions ~~financing transactions~~ secured by the Fund that are distributed directly to the Navajo Nation and are not held by a bond trustee or banking institution as may be required by the terms of such financings, shall not be comingled with, or invested together with, Fund Principal or Fund Income. Such proceeds shall be deposited into a separate Finance Proceeds Account administered by the Office of the Controller and shall be used to (i) pay the costs of the Eligible Capital Projects financed with such proceeds, and

(ii) shall be invested in investments permitted by the financing documents.

- B. Any earnings generated by the investment of the financing proceeds shall be segregated and accounted for and shall be used only for the purposes allowed by the terms of the financing to which the proceeds relate.
- C. The proceeds of any Financing Transactions ~~financing transactions~~ secured by the Fund shall only be used for:
 - 1. Costs of Issuance;
 - 2. ongoing costs related to each financing; and
 - 3. refinancing or restructuring any Financing Transaction under the Act;
 - 4. reimbursing Navajo Nation trust funds or other funding sources for funds that were appropriated for and expended on Eligible Capital Projects that are included on the Capital Development Strategic Plan and Database and that are selected for a Financing Project Listing under the Act; and
 - 5. project costs, including the costs of acquisition, planning, design, architecture, engineering, project management, development, and construction of Eligible Capital Projects authorized by a Financing Project Listing that complies with § 3209 of this Chapter.
- D. The proceeds of any Financing Transactions ~~financing transactions~~ secured by the Fund shall not be expended for any purpose other than those purposes specifically set forth in this Chapter. This provision is not subject to amendment or waiver under § 3215 of this Chapter.

§ 3213. Annual Audit

The Fund shall be subject to a detailed audit annually by the Navajo Nation's independent auditors and audited financial statements shall be included in an annual report to the Navajo Nation Council.

§ 3214. Fund Expenses

- A. All expenses associated with the administration and management of the Fund shall be paid first from realized Fund Income, if

sufficient, and then from the Fund Principal. Such expenses shall include investment advisory and management fees, financial advisor fees, legal fees, audit costs, and other related expenses, including the cost of technical experts to evaluate project eligibility and develop a comprehensive project database, all pursuant to duly approved contracts for such services.

- B. In order to protect Fund Principal from being unduly diminished by Fund expenses, the Controller shall forecast an annual cap on Fund expenses to be approved by the Budget and Finance Committee by the start of each Fiscal Year.
- C. All expenses for debt service, financing fees, and other costs related to securing financing with the Fund shall be paid first from realized Fund Income, if sufficient, and then from Fund Principal.
- D. The Controller shall have the authority to approve use of Fund Income, and Fund Principal, when necessary, to pay debt service or other payments required pursuant to, duly approved and executed Financing Transaction ~~finaneing—transaaction~~ documents. The Controller shall also have the authority to approve use of the Finance Proceeds Account and Fund Principal if the Fund Income is insufficient, to pay expenses associated with the administration and management of the Fund.

§ 3215. Non-impairment; Amendments and Waivers; Conflicts and Inconsistencies

- A. The Navajo Nation shall not pass or adopt any resolutions, ordinances or other laws of any nature, including any waivers or amendments to this Act, that shall impair the contractual rights of any party to any Financing Transaction ~~finaneing—transaaction~~ authorized by and entered into by the Navajo Nation under this Act, including any lender or any bondholder of any Financing Transaction ~~finaneing—transaaction~~ entered into under this Act.
- B. So long as an amendment or waiver does not impair the contractual rights of any party to any Financing Transaction ~~finaneing—transaaction~~, including any lender or any bondholder of any Financing Transaction ~~finaneing—transaaction~~, this Act or provisions of this Act may be amended or waived by a seven eighths (7/8) vote of the full membership of the Navajo Nation Council subject to action of the President of the Navajo Nation under 2 N.N.C. § 221(B). Sections 3210, 3211, and 3212 shall not be subject to amendment or waiver.

- C. Any laws or regulations of the Navajo Nation that are contrary to or inconsistent with the provisions of this Act or with any financing agreements entered into under this Act are inapplicable to this Act and any financing documents entered into under the authority of this Act to the extent of any such conflict or inconsistency.

§ 3216. Termination

The Fund shall terminate when all Fund Principal, Fund Income, and financing secured by the Fund, have been fully expended, provided, however, that the Fund shall not be terminated while any financing is outstanding.

SECTION FOUR. AMENDING COUNCIL RESOLUTIONS CMY-28-24 AND CJA-05-26 REGARDING FUNDING FOR BROADBAND INFRASTRUCTURE PROJECTS.

- A. CMY-28-24 Section Five (E), as amended by CJA-05-26 Section Three (D), provides:

"... The first allocation of Trust Fund Financing Proceeds shall be for broadband infrastructure projects qualifying under the criteria of the Trust Fund as Eligible Capital Projects eligible to be included in the Capital Development Strategic Plan and a Financing Project Listing as set forth in the Capital Development Financing Act in an amount up to \$77,888,986; ..."

- B. The Navajo Nation maintains its intent to fund Broadband Infrastructure Projects with the first Financing Proceeds secured with the CDFF. Therefore, CMY-28-24 Section Five (E), as amended by CJA-05-26 Section Three (D), is hereby amended as follows:

"... The first allocation of Trust Fund Financing Proceeds shall be for broadband infrastructure projects qualifying under the criteria of the Trust Fund as Eligible Capital Projects eligible to be included in the Capital Development Strategic Plan and a Financing Project Listing as set forth in the Capital Development Financing Act in an the amount up to \$77,888,986 of \$244,617,938.00, which shall include \$75,546,678.33 of Financing Proceeds to reimburse the UUFB for the appropriation of temporary funding for Year 1 projects in the Broadband Infrastructure Expenditure Plan, and

\$169,071,259.67 of Financing Proceeds to fund projects for Years 2, 3, and 4 in the Broadband Infrastructure Projects Expenditure Plan; ..."

SECTION FIVE. APPROVING AN APPROPRIATION OF \$75,546,678.33 FROM THE UNRESERVED, UNDESIGNATED FUND BALANCE TO THE NAVAJO NATION BROADBAND OFFICE FOR YEAR 1 PROJECTS IN THE BROADBAND INFRASTRUCTURE PROJECTS EXPENDITURE PLAN.

- A. The Navajo Nation hereby approves the Broadband Infrastructure Projects Expenditure Plan set forth in Exhibit A.
- B. The Navajo Nation hereby approves an appropriation of \$75,546,678.33 from the UUFB to the Navajo Nation Broadband Office for Year 1 Projects in the Broadband Infrastructure Projects Expenditure Plan.
- C. Pursuant to 12 N.N.C. § 820(J), the approved \$75,546,678.33 shall be from that amount of funds that exceeds the 10% minimum fund balance of the UUFB, as determined by the Office of the Controller.
- D. The appropriated UUFB funds shall be disbursed to the Navajo Nation Broadband Office within thirty (30) calendar days after the effective date of this Action.
- E. The portion of the \$75,546,678.33 from the UUFB that remain unspent and unencumbered at the end of the Navajo Nation fiscal year shall lapse and revert to the General Fund pursuant to 12 N.N.C. § 820(N).
- F. The UUFB shall be reimbursed in the amount of the appropriation approved herein, using funds available to the Navajo Nation from Financing Proceeds secured by the CDFF in the first financing transaction of the CDFF in accordance with Section Six below.

SECTION SIX. APPROVING AN APPROPRIATION OF \$244,617,938.00, FROM THE FIRST FINANCING PROCEEDS SECURED WITH THE CDFF FOR THE BROADBAND INFRASTRUCTURE PROJECTS EXPENDITURE PLAN, INCLUDING \$75,546,678.33 TO REIMBURSE THE UUFB FOR EXPENDITURES OF THE NAVAJO NATION BROADBAND OFFICE FOR YEAR 1 PROJECTS IN THE BROADBAND INFRASTRUCTURE EXPENDITURE PLAN, AND INCLUDING \$169,071,259.67 FOR BROADBAND INFRASTRUCTURE EXPENDITURE PLAN PROJECTS FOR YEARS 2, 3, AND 4.

- A. The Navajo Nation hereby approves an appropriation of \$244,617,938.00, from the first allocation of Financing

Proceeds secured by the CDFF, to the Navajo Nation Broadband Office for broadband infrastructure projects in Years 1 through 4 of the Broadband Infrastructure Projects Expenditure Plan, as follows:

1. The Navajo Nation hereby approves an appropriation of \$75,546,678.33 of Financing Proceeds from the first Financing Transaction secured by the CDFF, to the Navajo Nation Broadband Office, which funds shall be used to reimburse the UUFB for temporary funding advanced in the amount of \$75,546,678.33 to fund projects in Year 1 of the Broadband Infrastructure Projects Expenditure Plan. The Office of the Controller shall reimburse the UUFB following the Budget and Finance Committee's approval of the financing and within thirty (30) calendar days after the Navajo Nation President's execution of the Financing Transaction documents.
 2. The Navajo Nation hereby approves an additional appropriation of \$169,071,259.67 of Financing Proceeds from the first Financing Transaction secured by the CDFF, to the Navajo Nation Broadband Office, which funds shall be used to fund projects in Year 2, Year 3, and Year 4 of the Broadband Infrastructure Projects Expenditure Plan.
- B. The Navajo Nation hereby determines and approves that the projects included in the Broadband Infrastructure Projects Expenditure Plan for Years 1 through 4 shall be considered "Eligible Capital Projects" under the CDFA. Such broadband projects shall be included in the Capital Development Strategic Plan and Database, and in the first Financing Project Listing.

SECTION SEVEN. DIRECTIVES

- A. The Office of the Controller, with the approval of the Budget and Finance Committee, shall take all required measures to seek and to obtain Financing Proceeds in the first Financing Transaction secured by the CDFF in an amount greater than or equal to the \$244,617,938.00 appropriated through this Action.
- B. The Office of the Controller shall add the projects in Years 1 through 4 of the Broadband Infrastructure Projects Expenditure Plan to the Capital Development Strategic Plan and Database and shall categorize the projects within such expenditure plan as "Eligible Capital Projects" under the CDFA, which are to be included in the first Financing Project Listing with Financing Proceeds secured by the CDFF.

- C. The Office of the Controller shall cause the disbursement of \$75,546,678.33 from the UUFB to the Navajo Nation Broadband Office within thirty (30) calendar days after the effective date of this Action.
- D. The Office of the Controller shall reimburse the UUFB in the amount of \$75,546,678.33 from the Financing Proceeds of the first Financing Transaction secured by the CDFF following the Budget and Finance Committee's approval of the financing and within thirty (30) calendar days after the Navajo Nation President's execution of the Financing Transaction documents.

SECTION EIGHT. APPROVING AN APPROPRIATION OF \$162,662,830 FROM THE FIRST FINANCING PROCEEDS SECURED WITH THE CDFF FOR JUDICIAL BRANCH AND DIVISION OF PUBLIC SAFETY PRIORITY PROJECTS

- A. The Navajo Nation hereby approves an appropriation of \$162,662,830 from the first allocation of Financing Proceeds secured by the CDFF, to the Division of Public Safety for the following priority projects, also attached as **Exhibit G**:
 - 1. Replacement Facilities for the Shiprock (Tse Bitai) Judicial/Public Safety/Medical Examiners in the amount of \$112,868,214; and
 - 2. New Facilities for the Dilkon Justice Center Phase II in the amount of \$49,764,616.

SECTION NINE. COMPLIANCE WITH CJA-05-26 AND TITLE 12, CHAPTER 32, THE CAPITAL DEVELOPMENT FINANCING ACT

- A. Projects approved herein to receive appropriation from the CDFF shall comply with all applicable law, including CJA-05-26 and Title 12, Chapter 32, The Capital Development Financing Act.

SECTION TEN. EFFECTIVE DATE

This Action shall become effective upon its approval pursuant to 2 N.N.C. § 221(B), 2 N.N.C. § 1005(C)(10) - (11), and 2 N.N.C. § 164(A)(17).

SECTION ELEVEN. CODIFICATION

The provisions of this Act which amends or adopts new sections of the Navajo Nation Code shall be codified by the Office of Legislative Counsel. The Office of Legislative Counsel shall incorporate such amended provisions in the next codification of the Navajo Nation Code.

SECTION TWELVE. SAVING CLAUSE

Should any provision of this legislation or the Capital Development Financing Act be determined invalid by the Navajo Nation Supreme Court, or a District Court of the Navajo Nation without appeal to the Navajo Nation Supreme Court, those portions of the legislation or Act which are not determined invalid shall remain the law of the Navajo Nation.

CERTIFICATION

I, hereby, certify that the foregoing resolution was duly considered by the 25th Navajo Nation Council at a duly called meeting in Window Rock, Navajo Nation (Arizona), at which a quorum was present and that the same was passed by a vote of 21 in Favor, and 00 Opposed, on this 2nd day of July 2026.

Honorable Crystalyne Curley, Speaker
25th Navajo Nation Council

7/10/2026

Date

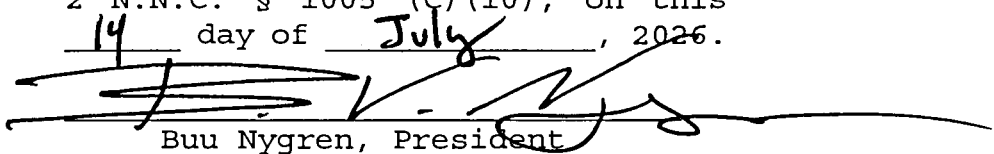

Motion: Honorable Carl R. Slater

Second: Honorable Otto Tso

Speaker Crystalyne Curley not voting

ACTION BY THE NAVAJO NATION PRESIDENT:

1. I, hereby, sign into law the foregoing legislation, pursuant to 2 N.N.C. § 1005 (C)(10), on this 14 day of July, 2026.

Buu Nygren, President
Navajo Nation

2. I, hereby, veto the foregoing legislation, pursuant to 2 N.N.C. § 1005 (C)(11), on this _____ day of _____, 2026 for the reason(s) expressed in the attached letter to the Speaker.

Buu Nygren, President
Navajo Nation

3. I, hereby, exercise line-item veto pursuant to the budget line-item veto authority delegated to the President by vote of the Navajo People in 2009, on this _____ day of _____, 2026.

Buu Nygren, President
Navajo Nation

BROADBAND OFFICE
Office of the President

Navajo Nation Broadband Infrastructure Projects
Expenditure Plan

A. Navajo Nation Broadband Infrastructure Projects Expenditure Plan –
Project Descriptions

Overview

The following projects comprise the Navajo Nation's broadband expenditure portfolio and represent a coordinated, multi-phase strategy to achieve universal broadband access across the Navajo Nation. These investments support immediate connectivity needs, long-term infrastructure development, and sustainable operations aligned with the Connect Diné initiative and the Navajo Nation Broadband Development Plan. The total cost of this comprehensive broadband investment is **\$244,617,938.00**, reflecting a significant commitment to expanding reliable, high-speed connectivity across the Nation.

Collectively, these projects will deliver broadband infrastructure including telecommunications towers, fiber networks, satellite and wireless solutions, a mobile 5G state-of-the-arts cellular network and last-mile connectivity to over 31,000 households, while ensuring all 110 Chapter Houses and key Community Anchor Institutions are connected.

This Navajo Nation Broadband Infrastructure Projects Expenditure Plan seeks an appropriation of UUFB (Unreserved, Undesignated Fund Balance) Funding in the amount of **\$ 75,546,678.00** for the Year 1 of the project costs as presented in **Section D, table 1.0** of this document. To reimburse this UUFB Fund transaction of **\$ 75,546,678.00** for the Year 1, expenditures will be reimbursed through Financing Proceeds secured by the Capital Development Financing Fund (CDFF) in accordance with the Capital Development Financing Act. The expenditure plan is also seeking an appropriation of the remaining funds needed to complete the plan in the amount of **\$169,071,260.00** of Financing Proceeds for the Eligible Broadband Capital Projects in Year 2, Year 3, & Year 4 of the Expenditure Plan.

1. Infrastructure / 5G Deployment

This project supports the large-scale deployment of 5G wireless infrastructure and supporting transport networks across the Navajo Nation to significantly expand broadband coverage and capacity. Currently, 5G service across the Navajo Nation is limited and fragmented, with only marginal coverage available in select areas. This project is designed to address that gap by enabling a comprehensive and scalable deployment of next-generation wireless infrastructure.

Project Elements

The project consists of the following key infrastructure elements:

- 5G Radio Access Network (RAN): Deployment of 5G radios, antennas, and base station equipment
- Tower Infrastructure:
 - Construction of 45 new 5G tower sites
 - Utilization of approximately 49 tower collocations on existing structures
- Transport and Backhaul Infrastructure:
 - Deployment of over 700 miles of fiber backhaul to support 5G network performance
- Core Network Integration: Connectivity to carrier core networks to enable service delivery
- Power and Supporting Systems: Power supply, backup systems, and site readiness improvements

Scope of Work

The funding will support:

- Deployment of 5G wireless infrastructure, including radios and base stations
- Construction and integration of transport and backhaul networks to support 5G operations
- Installation of supporting communications equipment and network systems
- Coordination with regional and national service providers for deployment and operation

Project Objective

The objective of this project is to significantly expand broadband coverage and capacity across the Navajo Nation through the deployment of 5G infrastructure.

Upon completion, this project is expected to provide over 88% 5G coverage across the Navajo Nation, dramatically improving access to high-speed broadband for residents, businesses, and government operations.

Project Implementation

The project will be implemented in partnership with regional and national service providers, including T-Mobile and transport providers, leveraging existing infrastructure where possible while expanding into underserved and unserved areas.

This approach ensures:

- Efficient deployment through public-private partnerships
- Access to industry-leading technology and expertise
- Long-term sustainability through established network operators

Capital Investment Justification

The deployment of 5G infrastructure and supporting transport networks represents a significant capital investment in broadband communications systems. These assets have a useful life exceeding ten (10) years and are essential to enabling long-term connectivity across the Navajo Nation.

The project qualifies as a broadband infrastructure capital project under the Navajo Nation's Capital Development Priorities and meets the definition of an Eligible Capital Project under 12 N.N.C. § 3204(D), as it includes the acquisition, planning, design, engineering, development, and construction of communications infrastructure.

Alignment with Funding Requirements

This project aligns with:

- UUFb emergency utilization as interim bridge financing to initiate Year 1 of this critical 5G infrastructure deployment
- Capital Development Financing Fund (CDFF) reimbursement mechanism ensuring UUFb is restored through long-term capital project financing
- Capital development priorities, with 5G infrastructure representing essential long-term regional wireless coverage and broadband expansion

2. Broadband Equity, Access, and Deployment (BEAD) Match

This project provides the Navajo Nation's required contribution to support the planning, design, engineering, and construction of last-mile broadband infrastructure under the federal Broadband Equity, Access, and Deployment (BEAD) Program.

The BEAD Program, administered by the National Telecommunications and Information Administration (NTIA), is implemented at the state level, with funding for the Navajo Nation managed through the States of Arizona, New Mexico, and Utah. The Navajo Nation has taken a leadership role as the applicant and coordinator to ensure Tribal lands are accurately represented and prioritized in these state-led processes.

To date:

- Arizona and Utah projects have been fully approved at both the state and federal levels
- New Mexico projects are currently pending final federal approval (NIST)

The Navajo Nation's participation in the BEAD program represents a large-scale capital infrastructure initiative, with a total project cost of \$373,996,198.00 across the Nation. The requested Navajo Nation contribution of \$37,754,577.00 (cash match) is critical to enabling the award of \$286,969,138.00 in federal BEAD funding. When combined with in-kind contributions, the total match reaches \$87,027,060.00, significantly leveraging Tribal investment to deliver broadband infrastructure at scale.

Scope of Infrastructure Deployment

The BEAD-funded projects will support broadband deployment to approximately 31,149 unserved and underserved broadband serviceable locations (BSLs) across the Navajo Nation:

- Applied BSLs: 31,149
- Unserved Locations: 6,492
- Underserved Locations: 24,657

State-level breakdown:

- Arizona: 17,136 BSLs
- New Mexico: 11,921 BSLs
- Utah: 2,092 BSLs

These projects will deliver broadband service meeting or exceeding 100/20 Mbps, significantly improving access to high-speed internet for residential, educational, healthcare, and economic use.

Infrastructure Components

The BEAD program will fund a combination of technologies based on geographic and cost considerations, including:

- Fiber-to-the-home (FTTH)
- Fixed Wireless Access (FWA)
- Low Earth Orbit (LEO) satellite solutions

Deployment metrics include:

- 37 new telecommunications structures
 - UT: 8 | NM: 11 | AZ: 18
- 115 tower collocations
 - UT: 12 | NM: 32 | AZ: 71
- 635 miles of middle-mile fiber
 - UT: 56 | NM: 89 | AZ: 490
- 221 miles of last-mile fiber
 - UT: 15 | NM: 76 | AZ: 130

Technology distribution across service locations:

- 8,477 locations served by fiber
 - UT: 162 | NM: 2,562 | AZ: 5,753
- 19,189 locations served by fixed wireless
 - UT: 1,441 | NM: 8,292 | AZ: 9,456
- 3,483 locations served by LEO satellite
 - UT: 489 | NM: 1,067 | AZ: 1,927

Regional Investment Breakdown

- Arizona:
 - Total Project Cost: \$198,294,688
 - Federal Funding Requested: \$148,635,859
 - Cash Match: \$21,593,983
 - Status: Fully approved
- New Mexico:
 - Total Project Cost: \$140,263,051
 - Federal Funding Requested: \$111,781,009
 - Cash Match: \$13,586,483
 - Status: Fully approved
- Utah:
 - Total Project Cost: \$35,438,459
 - Federal Funding Requested: \$26,552,270
 - Cash Match: \$2,574,110
 - Status: Fully approved

Capital Project Eligibility

The BEAD-funded deployments qualify as Eligible Capital Projects under 12 N.N.C. § 3204(D), as they include the planning, design, engineering, development, and construction of broadband infrastructure systems.

These projects:

- Fall under the Navajo Nation's capital development priority for broadband infrastructure
- Result in permanent infrastructure assets with useful lives exceeding 10 years
- Are structured to be construction-ready upon funding approval
- Provide Nation-wide benefits supporting economic development, education, healthcare, and public safety

Strategic Importance

This project represents one of the most significant broadband investments in the Navajo Nation's history. The Navajo Nation's contribution is essential to unlocking over \$286 million in federal funding, enabling a \$373 million total infrastructure deployment program that will deliver broadband access to over 31,000 homes and businesses across the Navajo Nation.

Alignment with Funding Requirements

This project aligns with:

- UUFB emergency utilization as interim bridge financing to initiate Year 1 of federal BEAD matching contributions
- Capital Development Financing Fund (CDFF) reimbursement mechanism ensuring UUFB is restored through long-term capital project financing
- Capital development priorities, with BEAD match funds supporting critical last-mile broadband expansion to over 31,000 unserved and underserved locations

3. Chapter Broadband Connectivity

This project will provide reliable broadband connectivity to the remaining 58 Chapter Houses that are not currently connected by fiber. These Chapter Houses serve as essential government facilities and community anchor institutions across the Navajo Nation.

At present:

- 52 Chapter Houses already have connectivity and are not part of this funding request
- 58 Chapter Houses remain without reliable fiber-based connectivity and are the sole focus of this project

The purpose of this project is to close this remaining connectivity gap by deploying immediate and reliable broadband solutions to these 58 Chapter Houses.

Deployment Approach

The project will utilize a mix of technologies based on geographic feasibility and infrastructure availability:

- 56 Chapter Houses will be connected using Low Earth Orbit (LEO) technology provided by Starlink (SpaceX)

- 2 Chapter Houses will be connected using point-to-point (P2P) fixed wireless systems

Breakdown by State

The 58 Chapter Houses included in this project are distributed as follows:

- Arizona: 23 Chapter Houses
 - 23 served using LEO (Starlink/SpaceX)
- New Mexico: 31 Chapter Houses
 - 29 served using LEO (Starlink/SpaceX)
 - 2 served using P2P fixed wireless systems
- Utah: 4 Chapter Houses
 - 4 served using LEO (Starlink/SpaceX)

Total: 58 Chapter Houses

Scope of Work

The funding requested under this project will support the procurement and installation of communications equipment and infrastructure exclusively for these 58 Chapter facilities, including:

- Starlink (SpaceX) satellite terminals and mounting systems
- Point-to-point wireless transmission and receiver equipment

Project Outcomes

Upon completion, this project will:

- Achieve 100% broadband connectivity across all 110 Chapter Houses
- Provide reliable high-speed internet access to support:
 - Government operations and administrative services
 - Public internet access for surrounding communities
 - Telehealth, education, and workforce development programs
 - Emergency communications and coordination

Capital Investment Justification

This project utilizes a mix of broadband technologies, including Low Earth Orbit (LEO) systems provided by Starlink (SpaceX) and fixed wireless systems. The funding will be used for the procurement and installation of permanent communications equipment and infrastructure at Chapter facilities, including satellite terminals, mounting structures, and network hardware.

These investments constitute capital improvements to Navajo Nation government facilities, as they involve the installation of physical communications infrastructure necessary to enable broadband connectivity. The equipment installed under this project has a multi-year useful life and will remain in place to support ongoing operations and service delivery.

Alignment with Funding Requirements

This project aligns with:

- UUFB emergency utilization as interim bridge financing to complete Year 1 connectivity to all 58 Chapter Houses
- Capital Development Financing Fund (CDFF) reimbursement mechanism ensuring UUFB is restored through long-term capital project financing
- Capital development priorities, with broadband connectivity to Chapter facilities supporting government operations, community services, and public access to high-speed internet

4. DIT Fixed Wireless Access Project

This project supports the deployment of a Fixed Wireless Access (FWA) network led by the Navajo Nation Division of Information Technology (DIT) to expand broadband availability in targeted areas where fiber and large-scale infrastructure deployment are not immediately feasible.

The purpose of this project is to provide rapid, cost-effective broadband coverage to underserved locations by leveraging advanced fixed wireless technology that can be deployed quickly and efficiently.

Scope of Work

The funding requested will support the acquisition, installation, and integration of fixed wireless infrastructure, including:

- Wireless transmission equipment (radios and antennas)
- Customer access equipment (receivers and endpoints)
- Supporting network hardware and integration with existing infrastructure
- Site preparation and minor infrastructure improvements where needed

The network will leverage Tarana Wireless equipment, one of the leading and most advanced fixed wireless technologies in the market. Tarana's next-generation platform is designed to deliver high-capacity, non-line-of-sight broadband connectivity, making it particularly well-suited for the challenging terrain and dispersed communities across the Navajo Nation.

Project Implementation

Project implementation will be carried out by a local Navajo entity that has been awarded this opportunity since 2025, ensuring that the deployment leverages local expertise, workforce development, and on-the-ground operational knowledge.

This approach supports:

- Development of Navajo technical capacity and workforce
- Faster and more efficient deployment due to local presence
- Long-term sustainability through local ownership and operational continuity

Project Objectives

The DIT FWA Network project is designed to:

- Provide broadband connectivity to approximately 35 locations in the areas of St. Michaels, Window Rock, Fort Defiance, and Tse Bonito
- Expand broadband access to underserved and hard-to-reach areas
- Provide interim and complementary connectivity solutions alongside fiber and 5G deployments
- Support government operations and community service delivery needs
- Enable scalable infrastructure that can be upgraded or integrated into future broadband expansions

Implementation Strategy

The FWA network will be deployed in areas where:

- Fiber deployment is not immediately feasible due to cost or terrain
- Existing infrastructure can be leveraged for rapid deployment
- Immediate connectivity needs exist for communities and government operations

By utilizing Tarana's advanced fixed wireless technology, the project will deliver reliable, high-performance broadband even in non-line-of-sight and rural environments, ensuring consistent service quality.

Capital Investment Justification

The requested funding will be used for the procurement and installation of fixed wireless infrastructure and equipment, representing a capital investment in broadband communications systems.

The infrastructure deployed under this project has a multi-year useful life and will support ongoing service delivery and network expansion. These investments are consistent with the development of regional communications infrastructure and contribute directly to improving broadband access across the Navajo Nation.

Alignment with Funding Requirements

This project aligns with:

- UUFb emergency utilization as interim bridge financing to initiate Year 1 deployment of fixed wireless access network to government facilities
- Capital Development Financing Fund (CDFF) reimbursement mechanism ensuring UUFb is restored through long-term capital project financing
- Capital development priorities, with fixed wireless technology supporting rapid broadband expansion to underserved areas and improving government operations

5. E-Rate Program Projects

This project supports the expansion and enhancement of broadband connectivity for schools and Chapter House libraries across the Navajo Nation through participation in the federal E-Rate Program, administered by the Federal Communications Commission (FCC).

The E-Rate Program provides funding to support broadband infrastructure and services for eligible educational and library institutions. The Navajo Nation Broadband Office (NNBO) leverages this program to maximize federal investment while utilizing local funding to meet matching and eligible cost requirements.

Scope of Work

The funding requested under this project will support eligible capital and infrastructure components associated with E-Rate-funded projects, specifically limited to:

- Fiber infrastructure deployment, including special construction to connect Chapter House libraries
- Procurement of desktop hardware, networking equipment, and software necessary to support broadband-enabled services
- Matching funds required for Dedicated Internet Access (DIA) services under E-Rate
- Special construction costs associated with extending fiber connectivity to eligible sites

Project Focus

This project is focused on completing connectivity for the remaining 31 Chapter House libraries, leveraging:

- E-Rate Funding Year 2025 awards
- E-Rate Funding Year 2026 applications and awards

These efforts build on prior E-Rate initiatives and ensure that all eligible Chapter libraries are fully connected with reliable, high-capacity broadband infrastructure.

Project Objectives

The E-Rate Program Projects are designed to:

- Complete fiber-based broadband connectivity to the remaining 31 Chapter House libraries
- Support high-speed Dedicated Internet Access (DIA) for educational and community use
- Provide necessary hardware and software infrastructure to enable digital services
- Strengthening libraries as community anchor institutions and digital access hubs

Implementation Strategy

The project will be implemented through:

- Coordination with eligible Chapter House libraries
- Compliance with all E-Rate program requirements and procurement processes
- Partnerships with qualified service providers for fiber construction and service delivery
- Alignment with existing and future E-Rate funding cycles

This approach ensures that the Navajo Nation continues to maximize federal funding opportunities while efficiently completing critical broadband infrastructure projects.

Capital Investment Justification

The requested funding supports the deployment of fiber infrastructure, procurement of equipment, and installation of broadband systems, all of which represent capital investments with a multi-year useful life.

These investments directly contribute to the development of educational and community broadband infrastructure, ensuring long-term service delivery and capacity.

Alignment with Funding Requirements

This project aligns with:

- UUFb emergency utilization as interim bridge financing to complete Year 1 fiber connectivity to Chapter House libraries
- Capital Development Financing Fund (CDFF) reimbursement mechanism ensuring UUFb is restored through long-term capital project financing
- Capital development priorities, by investing in infrastructure that supports schools, libraries, and community facilities with long-term educational and digital access benefits

6. Planning and Engineering

This project supports the planning, design, and engineering activities necessary to advance broadband infrastructure development across the Navajo Nation. These efforts are critical to ensuring that all broadband projects are technically sound, cost-effective, and ready for construction.

Scope of Work

The funding requested under this project will support pre-construction and design-related activities, including:

- Network planning and system design for broadband infrastructure
- Engineering studies and technical assessments
- Route planning for fiber deployment (middle-mile and last-mile)
- Environmental and regulatory review support
- Preparation of engineering designs and specifications

These activities are essential to ensure that broadband projects are properly designed, permitted, and ready for timely implementation.

Project Objectives

The Planning and Engineering project is designed to:

- Develop construction-ready broadband infrastructure projects
- Reduce project risks by ensuring technical and environmental feasibility
- Improve cost efficiency through optimized network design
- Accelerate deployment timelines by ensuring projects are ready to commence construction
- Support large-scale initiatives, including 5G deployment, BEAD-funded projects, and fiber expansion efforts

Implementation Strategy

Planning and engineering activities will be carried out through:

- Coordination with Navajo Nation entities and regulatory bodies
- Alignment with federal and state broadband program requirements (including BEAD and E-Rate)
- Integration with ongoing infrastructure projects to ensure consistency and scalability

These efforts will ensure that all projects included in the broadband plan are fully developed and positioned for successful execution.

Capital Investment Justification

The requested funding will be used for engineering, design, and planning activities directly tied to broadband infrastructure development, which are eligible components of capital project development. These activities are necessary for the acquisition, design, and development of capital infrastructure projects, and directly support construction and long-term infrastructure investment. As such, they are considered part of the overall capital project lifecycle.

Alignment with Funding Requirements

This project aligns with:

- UUFEB emergency utilization as interim bridge financing to initiate Year 1 planning and engineering activities supporting broadband infrastructure development
- Capital Development Financing Fund (CDFF) reimbursement mechanism ensuring UUFEB is restored through long-term capital project financing
- Capital development priorities, including broadband infrastructure projects that require engineering and design to advance to construction

7. Tower Purchasing – Regional Carriers

This project supports the strategic acquisition of up to 13 telecommunications towers located in New Mexico, which are critical to expanding broadband coverage across the Navajo Nation.

These towers are currently planned by regional carriers; however, without Navajo Nation investment, these towers are unlikely to be constructed, limiting broadband expansion in these areas. By purchasing these assets, the Navajo Nation ensures that this critical infrastructure is deployed and made available to support broadband services.

Scope of Work

The funding will support:

- Acquisition of up to 13 tower sites in New Mexico
- Integration of towers into the Navajo Nation broadband network
- Installation of equipment to support 5G and fixed wireless services

Project Objective

The objective of this project is to enable the deployment of critical tower infrastructure that would otherwise not be built, ensuring expanded wireless coverage and supporting ongoing broadband initiatives.

Capital Investment Justification

The acquisition of these towers represents a long-term capital investment in broadband infrastructure, with a useful life exceeding ten (10) years. These assets will support current and future wireless deployments across the region.

Alignment with Funding Requirements

This project aligns with:

- UUFb emergency utilization as interim bridge financing to secure strategic tower assets critical to 5G and wireless expansion
- Capital Development Financing Fund (CDFF) reimbursement mechanism ensuring UUFb is restored through long-term capital project financing
- Capital development priorities, with tower acquisition supporting long-term broadband infrastructure and generating leasing and revenue opportunities

The project will help build a portfolio of Navajo-owned telecommunications assets that support 4G LTE, 5G, and future wireless technologies, while also generating long-term leasing and revenue opportunities.

B. Navajo Nation Broadband Infrastructure Projects Expenditure – Project Implementation Plan

Overview

The Navajo Nation Broadband Implementation Plan follows a phased approach from 2026 through 2029, aligned with funding availability, project readiness, and federal program timelines (E-Rate and BEAD). The strategy prioritizes early planning and interim connectivity, followed by large-scale infrastructure deployment and BEAD-supported last-mile expansion.

Implementation Timeline Summary

Year: 2026

Focus: Planning, initial deployment for 5G with collocation, Chapter connectivity, E-Rate execution and BEAD LEO household's implementation.

Investment: \$75,546,678.00

Year: 2027

Focus: Peak deployment period for 5G infrastructure, BEAD-funded expansion, and E-Rate implementation activities

Investment: \$84,779,279.00

Year: 2028

Focus: Continued deployment of new 5G infrastructure and transport deployment and BEAD implementation.

Investment: \$54,541,467.00

Year: 2029

Focus: Final buildout for 5G and BEAD

Investment: \$29,750,514.00

Project Implementation Summary

Part A – Infrastructure / 5G Deployment

- 2026: Initiate tower construction, Collocation on existing towers, fiber and tower permitting.
- 2027: Intense construction for 5G, transport and BEAD and initial 5G activation
- 2028: Continued deployment of 5G and transport
- 2029: Final buildout of 5G

Part B – BEAD Cash Matching

- 2026–2029: Phased match contributions aligned with BEAD awards
- Supports last-mile deployment to 20,000–30,000+ households. During 2026 BEAD implementation of LEO households will be completed.

Part C – Chapter Broadband Connectivity

- 2026: Complete connectivity to all remaining 58 Chapter Houses libraires using LEO, fiber, and wireless. It is expected to be completed with 3 months of funding. This provides immediate broadband access and public Wi-Fi

Part D – DIT Fixed Wireless Access Network

- 2026: Deploy network to 35 government facilities. Improve internal operations and service delivery.

Part E – E-Rate Program Projects

- 2026 - 2028: Complete majority of fiber and equipment deployments and ensure full operation. Chapter Library Program to be improved and fully functional

Part F – Planning and Engineering

- 2026: Complete design, permitting, and feasibility work
- 2027: Provide engineering support during construction

Part G – Tower Purchasing from Regional Carriers

- 2026–2028: Phased acquisition of strategic tower assets
- Supports faster deployment and Navajo-owned infrastructure

C. Navajo Nation Broadband Infrastructure Projects Expenditure - Entity, Oversight, and Operations Summary

Entity Receiving Funding

The Navajo Nation Broadband Office (NNBO), under the Office of the President and Vice President (OPVP), will serve as the primary entity responsible for receiving, managing, and administering all broadband-related funds. The Navajo Nation is acting as the applicant and subgrantee for major programs such as BEAD and will distribute funds to selected service providers through competitive procurement processes.

Legislative and Administrative Oversight

Oversight will be provided through a coordinated governance structure:

- Resources and Development Committee (RDC): Legislative oversight
- OPVP: Executive leadership and coordination
- Office of the Controller (OOC): Financial oversight and compliance

This structure ensures accountability, transparency, and compliance with all requirements.

Operations and Maintenance (O&M)

The Navajo Nation will implement a hybrid model:

- Navajo Nation: Owns and manages core infrastructure (towers) under an open-access model
- Service Providers: Responsible for network operations, maintenance, and customer service
- Contractors: May support technical maintenance and network operations

Project Timeline

- **INFRASTRUCTURE / 5G DEPLOYMENT**
 - Critical to complete contract with Tier 1 by 6/2026
 - Project Deployment of Collocation year 2026 -2027
 - New Construction year 2027-2029
- **BROADBAND EQUITY, ACCESS, AND DEPLOYMENT (BEAD) MATCH**
 - Critical to complete contracts with State broadband office by 6/2026 for Arizona, 8/2026 for Utah and expected for 9/2026 for New Mexico
 - Project Implementation will be 4 years from the time the contracts are signed.
- **CHAPTER BROADBAND CONNECTIVITY**
 - Complete contracts with service providers as soon as funding is available and implementation will be completed within 3 months of contract execution.
- **DIT FIXED WIRELESS ACCESS PROJECT**
 - Complete contracts with the contractor awarded as soon as funding is available and implementation will be completed within 4 months of contract execution.
- **E-RATE PROGRAM PROJECTS**
 - Implementation of the ERATE program is expected between 2026 and 2028

- **PLANNING AND ENGINEERING**
 - This step is expected to be completed between 2026 to 2027
- **TOWER PURCHASING REGIONAL CARRIERS**
 - To be completed between 2026 to 2028

This framework ensures strong tribal control, effective oversight, and sustainable operations while enabling partnerships that support long-term broadband expansion and service delivery.

D. Navajo Nation Broadband Infrastructure Projects Expenditure - Total Amount of Funds Requested

1. Total Funding Request by Year

Category	Total Need	2026	2027	2028	2029
Navajo Nation Broadband Plan (Total)	\$244,617,938.00	\$75,546,678.00	\$84,779,279.00	\$54,541,467.00	\$29,750,514.00

Table 1.0

2. Funding Breakdown by Major Project Categories

Project Category	Total Need	2026	2027	2028	2029
Part A – Infrastructure / 5G Deployment	\$195,158,250.00	\$56,257,550.00	\$68,984,988.00	\$46,141,162.00	\$23,774,550.00
Part B – BEAD Cash Matching	\$37,754,577.00	\$12,901,324.00	\$11,169,984.00	\$7,707,305.00	\$5,975,964.00
Part C – Chapter Broadband Connectivity	\$617,658.00	\$617,658.00			
Part D – DIT Fixed Wireless Access Network	\$389,585.00	\$389,585.00			
Part E – E-Rate Program Projects	\$4,427,077.00	\$2,500,666.00	\$1,926,411.00		
Part F – Planning and Engineering	\$875,000.00	\$875,000.00			
Part G – Tower Purchasing (Regional Carriers)	\$5,395,791.00	\$2,004,895.00	\$2,697,896.00	\$693,000.00	
Total	\$244,617,938.00	\$75,546,678.00	\$84,779,279.00	\$54,541,467.00	\$29,750,514.00

Table 2.0

The Navajo Nation Broadband Plan represents a total investment of \$244,617,938.00 over a four-year period (2026–2029). Most of the funding is concentrated on infrastructure and 5G deployment (approximately 80%), followed by BEAD matching funds (approximately 15%), with the remaining funds supporting connectivity programs, planning, and operational capacity.

Funding is front-loaded in 2026 and 2027, which represent the primary planning and construction phases, with decreasing expenditures in later years as projects move toward completion and optimization.

If you have any questions, please contact **Sonia Nez, Navajo Nation Broadband Office Department Manager** at (928) 810-9205 or sonianez@navajo-nsn.gov.

Navajo Nation Broadband Office

PART II. PLAN OF OPERATION/RESOLUTION NUMBER/PURPOSE OF PROGRAM: (Specify Information)

POCD-33-22 The Office shall have the power to perform any and all acts necessary and convenient to fulfilling the following purposes: 1. Ensure that all residents of the Navajo Nation have access to affordable high-speed broadband connectivity. 2. Coordinate and streamline the planning of broadband infrastructure projects and deployment on the Navajo Nation. 3. Represent the Navajo Nation government's best interests in negotiation with developers seeking to provide broadband services on the Navajo Nation. 4. Coordinate all broadband development and infrastructure.

PART III. PROGRAM PERFORMANCE CRITERIA:

Goal	Actual	Goal	Actual	Goal	Actual	Goal	Actual
1st QTR		2nd QTR		3rd QTR		4th QTR	

1. Program Performance Measure:

Construct critical broadband infrastructure to implement 5G project

Hire vendor to implement 5G at 49 sites

27

22

2. Program Performance Measure:

Construct critical broadband infrastructure to implement BEAD project

Hire vendor to implement BEAD at 6,232 homes

3,583

2,649

3. Program Performance Measure:

Construct critical broadband infrastructure to implement the Chapter Connectivity project

Hire vendor to connect 58 chapters to Low Earth Orbit satellite and PTP

35

23

4. Program Performance Measure:

Construct critical broadband infrastructure to implement Erate project

Hire vendor to construct fiber to 25 chapters

8

17

5. Program Performance Measure:

Construct critical broadband infrastructure to implement Window Rock/Fort Defiance Fixed Wireless

Hire vendor to implement fixed wireless solution to 35 locations

Navajo Nation Broadband Office – Statement of Need: \$75,546,678.

**APPENDIX J
STATEMENT OF NEED**

The Navajo Nation Broadband Office respectfully requests \$75,546,678. fund priority broadband initiatives across the Navajo Nation. These projects are identified in the Navajo Nation Broadband Plan 2.0 and are selected for their immediate and transformative impact on the Navajo people.

INFRASTRUCTURE / 5G DEPLOYMENT — \$ 56,257,550

This investment will support the deployment of 5G sites. This will provide the initial construction of 49 5G - colocation to expand cellular service across the Navajo Nation. These sites will support both mobile and fixed wireless broadband access for homes and businesses.

Ongoing coordination with Tier 1 carriers will further expand coverage and service capabilities. These foundational assets will position the Navajo Nation to compete effectively for BEAD funding, enabling last-mile broadband deployment and advancing long-term digital inclusion and economic opportunity.

BROADBAND EQUITY, ACCESS, AND DEPLOYMENT (BEAD) MATCH — \$ 12,901,324

This funding will support the Navajo Nation's required match for approximately 34% of the BEAD-funded deployment across all five agencies, connecting approximately 6,232 subscribers.

For every dollar invested by the Navajo Nation, the BEAD program is expected to leverage approximately ten dollars in federal funding, representing a significant opportunity to maximize Tribal investment.

The overall BEAD match will support deployment of a mix of technologies, including:

- Fiber
- Fixed wireless
- Low Earth Orbit satellite solutions

The full investment will connect approximately 31,149 broadband serviceable locations (BSLs) across the Navajo Nation:

- Utah: 2,092
- New Mexico: 11,921
- Arizona: 17,136

This regional distribution ensures equitable access across all three states.

Note: With a total projected match of approximately \$37.7 million, the Navajo Nation is positioned to unlock nearly \$387 million in broadband infrastructure investment, delivering both immediate connectivity and long-term economic benefits.

Navajo Nation Broadband Office – Statement of Need: \$75,546,678.

CHAPTER BROADBAND CONNECTIVITY — \$ 617,658.

This project will support broadband access across 110 chapters, prioritizing underserved and unserved communities. While the final solution, which is fiber optic connectivity, 56 chapters will receive interim LEO-based broadband service.

Funding will support the installation of 56 LEO equipment and 2 point to points system, including the Direct internet access to ensure immediate connectivity while fiber infrastructure is being deployed.

DIT FIXED WIRELESS ACCESS PROJECT — \$389,585.

The Department of Information Technology (DIT) will expand and stabilize connectivity for Navajo Nation government operations.

This project will improve service in:

- Window Rock
- Fort Defiance
- St. Michaels
- Tse Bonito

Approximately 35 locations will be connected via fixed wireless distribution from the DIT central network, improving reliability and operational efficiency.

E-RATE PROGRAM PROJECTS — \$ 2,500,666.

This funding will provide required match support for special construction and related ERATE topics as mentioned below:

- Matching for E-Rate fiber construction for 25 chapter houses libraries
- ERate Desktop hardware systems and ERate Desktop software
- Direct Internet Access Cost
- ERATE Consulting fees

PLANNING AND ENGINEERING — \$ 875,500.

This funding will support critical planning, engineering, and permitting activities necessary to advance the Navajo Nation Broadband Initiative.

Progress on full implementation is currently pending compliance with Navajo Nation Council Resolution CJA-05-26. In the interim, this funding will enable:

- Completion of engineering designs and schematics
- Advancement of right-of-way and permitting processes
- Targeted planning support for 5G deployment

Navajo Nation Broadband Office – Statement of Need: \$75,546,678.

These efforts are essential to ensure the Nation is fully prepared to execute broadband projects efficiently once approvals are finalized.

TOWER PURCHASING FROM REGIONAL CARRIERS - \$ 2,004,895.

This will fund the purchase of 5 towers from a Regional Carrier that will be used for 5G and BEAD program.

**NAVAJO NATION
OFFICE OF THE CONTROLLER**

MEMORANDUM:

To: 2 NNC § 164 Reviewers of the Navajo Nation Government
Honorable Delegates of the 25th Navajo Nation Council

From: Sean McCabe CPA, Navajo Nation Office of the Controller

Date: June 2, 2026

Subject: UUFB \$75,546,678 Supplemental Budget Request – Navajo Nation
Broadband Office

Signed by:

B7B65B890E0F410...

The Office of the Controller has reviewed the document referenced above.

1. The unaudited balance of the UUFB as of May 13, 2026, is \$376,759,000.
2. This supplemental request from the Navajo Nation Broadband Office amounts to \$75,546,678. The request is to fund various broadband projects throughout the Navajo Nation. Planned projects include but are not limited to:
 - Broadband 5G Infrastructure
 - BEAD Cash Match funds
 - DIT fixed wireless access networking
 - E-rate Fiber Construction Matching funds
 - Planning and Engineering
 - Purchase of Towers.

Since this is a supplemental request primarily for capital infrastructure and equipment costs, it will be classified as **NON-RECURRING**. If you have any questions, please feel free to contact me at tribal extension X6496 or sean.mccabe@navajo-nsn.gov.

The Navajo Nation **DR. BUU NYGRE**
Yideeskáadi Nitsáhákees **RICHELLE MONTO**

MEMORANDUM

TO : Sonia Nez, Executive Director
Office of Navajo Broadband

FROM : 
Dominic Beyer, Executive Director
Office of Management and Budget

DATE : June 03, 2026

SUBJECT : Supplemental Funding Request from the Undesignated, Unreserved Fund
Balance (UUFb) for \$75,546,678 for Navajo Nation Broadband Office

1. On June 03, 2026, OMB reviewed the submitted Budget Forms 1-4 and finds them in good order. The UUFb request for Navajo Nation Broadband Office will need to be assigned a new business unit number. A plan of operation would eventually be needed.
2. Appendix J refers to request funding various broadband projects throughout the Navajo Nation. A copy of Statement of Need is attached to Appendix J.
3. Per the Appropriations Act, recurring costs should be covered by recurring funds and non-recurring costs by non-recurring funds. Use of the UUFb may require a waiver of these provisions.
4. In this memorandum, OMB comments on the signed and submitted budget forms only. If legislation is dropped, then OMB may submit a revised memorandum.

Contact OMB at (928) 357.6798 if there are any questions and/or concerns regarding this memorandum.

xc: 25th Navajo Nation Council

Resolution No. AC-JANUARY-2026-102

A RESOLUTION OF THE ANETH CHAPTER SUPPORTING THE NAVAJO NATION'S REQUEST FOR FUNDING NECESSARY FOR THE IMPLEMENTATION OF THE BROADBAND EQUITY, ACCESS, AND DEPLOYMENT (BEAD) PROGRAM, THE DEPLOYMENT OF A 5G NETWORK ACROSS THE NAVAJO NATION, AND THE CONTINUED SUPPORT OF OTHER BROADBAND PROJECTS INCLUDING ERATE AND CHAPTER CONNECTIVITY.

WHEREAS:

1. Pursuant to Navajo Tribal Council Resolution N. CMY-23-79, the Aneth Chapter is duly certified and recognized as an official local unit of the Navajo Nation Government with all duties, responsibilities, and authorities conferred according to 26 N.N.C & 101 st. seg. And has the power and authority to enact plans and development goals that are in the best interest of the community and to recommend, support, and approve community related projects; and
2. The Aneth Chapter is a duly recognized subdivision of the Navajo Nation pursuant to the Navajo Nation Code and the Local Governance Act, and is authorized to take official action on matters affecting the welfare and development of its residents; and
3. Reliable broadband access is an essential service that directly impacts education, healthcare, economic development, public safety, and governmental operations within the Navajo Nation; and
4. The Navajo Nation Broadband Office (NNBO), under the Office of the President and Vice President (OPVP), has submitted a funding request necessary to continue and expand broadband implementation activities across the Nation; and
5. The Navajo Nation has been provisionally awarded significant federal investments under the Broadband Equity, Access, and Deployment (BEAD) Program, requiring immediate preparatory and implementation activities to secure the funding and to deploy last-mile connectivity to unserved and underserved Navajo homes and Community Anchor Institutions; and

Telephone: (435) 651-3525
Fax (435) 651-3560

aneth@navajochapters.org
<https://aneth.navajochapters.org>

Post Office Box 430
Montezuma Creek, UT 84534

BE IT FINALLY RESOLVED THAT:

The Aneth Chapter authorizes its officials to transmit this resolution to the Office of the President and Vice President, the Navajo Nation Council, the Budget and Finance Committee, and the Navajo Nation Broadband Office as formal evidence of community support for the funding request and the urgent need for continued broadband infrastructure development.

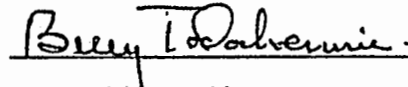

*****CERTIFICATION*****

We hereby certify that the foregoing resolution was duly considered by the Aneth Chapter at a duly called meeting held on the 18th day of January, 2026, at which a quorum was present, and that the same was passed by a vote of 24 in favor, 0 opposed, 2 abstaining.

RESOLUTION OF CHILCHINBETO CHAPTER OF THE NAVAJO NATION

Resolution # CCH-06-24-2025E

REQUESTING THE NAVAJO NATION BROADBAND DEPLOYMENT & IMPLEMENTATION AND THE NAVAJO NATION TO CONSTRUCT A BROADBAND FOR THE NEENAahnizah AREA OF CHILCHINBETO COMMUNITY

WHEREAS:

1. Pursuant to 26 N.N.C., Section 3 (A) the Chilchimbeto Chapter is a duly recognized certified chapter of the Navajo Nation Government, as listed at 11 N.N.C., part 1, section 10, and
2. Pursuant to 26 N.N.C., Section 1 (B) Chilchimbeto Chapter is vested with the authority to review all matters affecting the community to make appropriate corrections when necessary and make recommendations to the Navajo Nation and other local agencies for appropriate actions, and
3. The Chilchimbeto Chapter supports Distant Learning Access and other ways for the students to share equally in a world of technology in the field of learning, communication, and faster exchange of knowledge. The area in the Neenaahnizaah area (-109.9639406, 36.496381) DEI 35. The officials we were told this area is not considered at this time; and
4. Chilchimbeto Chapter acknowledges the Project Timeline Process about students' need for access to learning materials while at home. These students are from Kayenta Unified School District, Rough Rock Community School, Chilchimbeto Community School, and Dine College. Residents along this internet route can best be served with broadband.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Chilchimbeto Chapter hereby approves the request to have the Navajo Nation Broadband Deployment & implementation construct a broadband facility and develop broadband services for the Neenaahnizaah to Chilchimbeto community.

CERTIFICATION

We hereby certify that the foregoing resolution was considered at a duly called meeting at Chilchimbeto Chapter, Navajo Nation, at which time a quorum was present and the same was passed by a vote of 19 in favor, 00 opposed, and 00 abstained, this 24th day of June, 2025.

RESOLUTION OF INDIAN WELLS CHAPTER

SUPPORTING THE NAVAJO NATION BROADBAND OFFICE AND ITS CONNECT DINÉ INITIATIVE, CREATED IN PARTNERSHIP WITH THE NAVAJO PEOPLE, IN THE IMPLEMENTATION OF THE NAVAJO NATION BROADBAND PLAN, INCLUDING BROADBAND OPPORTUNITIES, INFRASTRUCTURE DEVELOPMENT, AND ACCESS TO FUNDING.

RESOLUTION # IWC-25-48

WHEREAS:

1. The Indian Wells Chapter is a recognized chapter of the Navajo Nation and recognized as a local governmental entity vested with certain authority and responsibilities to consider and act on matters of local concern that are in the best interests of health, safety and welfare of the chapter membership and residents; and
2. Pursuant to 26 N.N.C., Navajo Nation Local Governance Act (LGA), the Navajo Nation Council delegates Chapter governmental authority with respect to local matters consistent with Navajo Nation law, including customs and traditions to make decisions over local matter and to govern with responsibility and accountability to the local citizens; and
3. Reliable, affordable broadband access is essential to the Navajo People's health, education, economic development, public safety, and self-governance; and
4. The Navajo Nation Broadband Office (NNBO), in close coordination with the Navajo People, and its **Connect Diné** initiative have a plan for implementing broadband and wireless infrastructure including 5G, across the Navajo Nation in a way that is equitable, sovereign, and community-led; and
5. The Navajo Nation Broadband Plan, developed through NNBO and Connect Diné, outlines a phased strategy to build telecommunications towers, deploy fiber optic infrastructure, and establish open-access wireless and satellite internet services; and
6. The Navajo Nation is pursuing funding and regulatory approvals to support broadband expansion through programs such as the **Broadband Equity, Access, and Deployment (BEAD) Program**, E-Rate, American Rescue Plan Act (ARPA), and National Telecommunications and Information Administration (NTIA) initiatives; and

7. These efforts target thousands of unserved and underserved homes, schools, health centers, Chapter Houses, senior centers, and other Community Anchor Institutions (CAI), and are structured to promote local employment, affordability, and long-term maintenance of broadband infrastructure; and
8. The Connect Diné initiative supports community outreach, stakeholder education, permitting coordination, and the development of telecommunications policies to ensure Chapter-level participation and benefit; and
9. The Indian Wells Chapter recognizes the need for intergovernmental support to accelerate infrastructure timelines and ensure that no Chapter is left behind in the broadband expansion.

NOW, THEREFORE BE IT RESOLVED THAT:

1. The Indian Wells Chapter hereby **expresses its full and formal support for the Navajo Nation Broadband Office and its Connect Diné initiative**, established in partnership with the Navajo People, in the implementation of the Navajo Nation Broadband Plan.
2. The Indian Wells Chapter supports the Navajo Nation's applications to federal and state broadband programs, including BEAD, and encourages the Nation to continue prioritizing underserved and unserved communities across both states.
3. Indian Wells Chapter calls for continued cooperation and communication between the NNBO, Chapters, Navajo Land Department, Division of Natural Resources, Resources and Development Committee (RDC), the full Navajo Nation Council and the Office of the President and Vice President (OPVP) to resolve permitting, leasing, and siting issues.
4. The Indian Wells Chapter affirms its readiness to support the siting of infrastructure, public outreach, and implementation activities necessary to ensure that broadband access reaches all communities within Fort Defiance Agency.

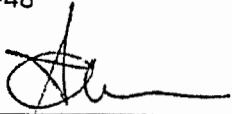

CERTIFICATION:

We hereby certify that the foregoing resolution was duly considered by the Indian Wells Chapter at Indian Wells, Navajo Nation, (Arizona), at a duly called meeting where a quorum was present and that the same was passed by a vote of 7 in favor, 0 opposed, and 8 abstained on this 21st day September 2025.

Resolution of the Many Farms Chapter

MEETING 2025

**A RESOLUTION OF THE MANY FARMS CHAPTER SUPPORTING THE NAVAJO
NATION BROADBAND OFFICE AND ITS CONNECT DINÉ INITIATIVE, CREATED
IN PARTNERSHIP WITH THE NAVAJO PEOPLE, IN THE IMPLEMENTATION OF
THE NAVAJO NATION BROADBAND PLAN, INCLUDING BROADBAND
OPPORTUNITIES, INFRASTRUCTURE DEVELOPMENT, AND ACCESS TO
FUNDING.**

WHEREAS:

1. Pursuant to CMY-23-79, the Many Farms Chapter is a certified chapter of the Navajo Nation vested with authority and responsibilities to provide and enact on all matters affecting the community; and
2. Pursuant to CAP-34-98, the Navajo Nation Council approved the Navajo Nation Local Governance Act (LGA) that allows Many Farms Chapter to make decisions over local matters; and
3. The Many Farms Chapter is the duly recognized coordinating body representing the Many Farms chapter within the Central Agency of the Navajo Nation; and
4. Reliable, affordable broadband access is essential to the Navajo People's health, education, economic development, public safety, and self-governance; and
5. The Navajo Nation Broadband Office (NNBO), in close coordination with the Navajo People, and its Connect Diné initiative have a plan for implementing broadband and wireless infrastructure including 5G, across the Navajo Nation in a way that is equitable, sovereign, and community-led; and
6. The Navajo Nation Broadband Plan, developed through NNBO and Connect Diné, outlines phased strategy to build telecommunications towers, deploy fiber optic infrastructure, and establish open-access wireless and satellite internet services; and
7. The Navajo Nation is pursuing funding and regulatory approvals to support broadband expansion through programs such as the Broadband Equity, Access, and Deployment (BEAD) Program, E-Rate, American Rescue Plan Act (ARPA), and National Telecommunications and Information Administration (NTIA) initiatives; and
8. These efforts target thousands of unserved and underserved homes, schools, health centers, Chapter Houses, senior centers, and other Community Anchor Institutions (CAI), and are structured to promote local employment, affordability, and long-term maintenance of broadband infrastructure; and
9. The Connect Diné initiative supports community outreach, stakeholder education, permitting coordination, and the development of telecommunications policies to ensure Chapter-level participation and benefit; and
10. The Many Farms Chapter recognizes the need for intergovernmental support to accelerate infrastructure timelines and ensure that no Chapter is left behind in the broadband expansion.

NOW, THEREFORE BE IT RESOLVED THAT:

1. The Many Farms Chapter hereby expresses its full and formal support for the Navajo Nation Broadband Office and its Connect Diné initiative, established in partnership with the Navajo People, in the implementation of the Navajo Nation Broadband Plan.
2. The Many Farms Chapter supports the Navajo Nation's applications to federal and state broadband programs, including BEAD, and encourages the Nation to continue prioritizing underserved and unserved communities across both states.
3. The Council calls for continued cooperation and communication between the NNBO, Chapters, Navajo Land Department, Division of Natural Resources, Resources and Development Committee (RDC), the full Navajo Nation Council and the Office of the President and Vice President (OPVP) to resolve permitting, leasing, and siting issues.
4. The Many Farms Chapter affirms its readiness to support the siting of infrastructure, public outreach, and implementation activities necessary to ensure that broadband access reaches all communities within the Central Agency.

CERTIFICATION

We hereby certify that the Many Farms Chapter considered the foregoing resolution at a duly called meeting in Many Farms, Arizona at which a quorum was present and that that same was passed by a vote of 28 in favor, 0 opposed and 1 abstained this 18th day of August, 2025.

RESOLUTION OF THE MANY FARMS CHAPTER MF-20-12-2025

RESPECTFULLY REQUESTING THE ESTABLISHMENT OF FINANCIAL PROTOCOLS AND LEGISLATIVE APPROPRIATIONS FOR THE CONSTRUCTION OF WIRELESS TOWERS AND OTHER TELECOM RELATED INFRASTRUCTURE TO ADDRESS THE CELLULAR AND BROADBAND NEEDS AT PEACH MESA AND OTHER UNSERVED AREAS

WHEREAS:

1. Pursuant to CMY-23-79, the Many Farms Chapter is a certified chapter of the Navajo Nation vested with the authority and responsibilities to provide for and act on all matters affecting the community.
2. Pursuant to CAP-34-98, the Navajo Nation Council adopted the Navajo Nation Local Governance Act (LGA), granting the Many Farms Chapter authority to make decisions over local matters.
3. The Many Farms Chapter initiated its effort to secure cellular service with an initial resolution and consent of a Navajo Nation Land Withdrawal, which was forwarded to Smith Bagley, Inc. in August 2014.
4. This request is currently pending while the West Many Farms cellular tower is being constructed, in accordance with a Many Farms Chapter resolution adopted in March 2022.
5. The Peach Mesa area represents a life-threatening, remote, and isolated environment, characterized by 6.5 miles of often impassable roads during the winter months and the frequent presence of wildlife, including lions and bears.
6. Due to its location, the route serving Peach Mesa does not consistently receive orderly road maintenance from the Navajo Nation Department of Transportation (NNDOT), as it falls within the 4th phase of the Chapter/NNDOT plan and fails to meet the 15-mile grading schedule.
7. The establishment of a cellular tower is vital to the emergency needs of the Peach Mesa community, providing a critical safety net for school buses, employees, seniors, individuals with disabilities, single parents with minor children, and essential service providers.
8. The Many Farms Chapter fully supports the implementation of the Navajo Nation Broadband Plan and the Connect Diné Initiative, which include the construction of 5G towers, deployment of middle-mile and last-mile fiber networks, Low Earth Orbit (LEO) interim connectivity, and all other broadband infrastructure necessary to connect unserved and underserved Navajo homes, Chapter facilities, schools, and community anchor institutions across the Navajo Nation.

NOW, THEREFORE BE IT RESOLVED THAT:

The Many Farms Chapter hereby approves this request and respectfully directs the following actions to ensure the timely delivery of broadband service to the chapter area including Peach Mesa:

1. The Chapter requests that Assistant Attorney General Mel Rodis (DOJ), the Budget and Finance Committee (BFC) and Controller Sean McCabe (OOC), create and establish the required trust fund, in accordance with the provisions of CMY-28-24.

2. The Chapter requests that Navajo Nation release and make available to the Navajo Nation Broadband Office the \$77.8 million from the 521/RRR fund, originally allocated for broadband development, so that critical broadband infrastructure projects can begin construction and operation in accordance with the Navajo Nation Broadband Plan.
3. Navajo Nation Leadership Monitoring: The Chapter requests that the Honorable Speaker Crystalyne Curley and Acting Attorney General Kris Beecher actively monitor the process and support this critical request.
4. Navajo Nation Executive Branch: The Chapter respectfully requests that the Executive Branch and the Legislative Budget and Finance Committee establish the necessary financial protocol to expedite the Many Farms Chapter's broadband needs at Peach Mesa.
5. The Many Farms Chapter hereby commits to providing full support for broadband development within its jurisdiction, including but not limited to: granting required permits and land clearances, approving rights-of-way, facilitating surveys and site access, and supporting funding applications or matching requirements necessary to implement all phases of the Navajo Nation Broadband Plan and Connect Diné projects—ensuring that broadband infrastructure, fiber deployment, 5G towers, and related facilities can be constructed without delay for the benefit of the Many Farms community.

CERTIFICATION

We, hereby certify that the foregoing resolution was considered by the Many Farms Chapter at a duly called Chapter meeting in Many Farms, (Navajo Nation) Arizona at which a quorum of chapter membership was present and that the same was passed by a vote of 15 in favor, 0 opposed and 2 abstained this 15th day of December 2025.

RESOLUTION OF THE MANY FARMS CHAPTER MF-21-12-2025

RESPECTFULLY REQUESTING THE ESTABLISHMENT OF FINANCIAL PROTOCOLS AND LEGISLATIVE APPROPRIATIONS FOR THE CONSTRUCTION OF WIRELESS TOWERS AND OTHER TELECOM RELATED INFRASTRUCTURE TO ADDRESS THE CELLULAR AND BROADBAND NEEDS AT CARSON MESA AND OTHER UNSERVED AREAS

WHEREAS:

1. Pursuant to CMY-23-79, the Many Farms Chapter is a certified chapter of the Navajo Nation vested with the authority and responsibilities to provide for and act on all matters affecting the community; and
2. Pursuant to CAP-34-98, the Navajo Nation Council adopted the Navajo Nation Local Governance Act (LGA), granting the Many Farms Chapter authority to make decisions over local matters; and
3. This Cellular Tower will be located on Top of Carson Mesa near BIA road N8090 between Rough Rock and Rock Point; and
4. Currently the Carson Mesa community members have limited cellular service. Community members have to drive a distant to have communication with family, emergency responders, school, workplace and service providers; and
5. The establishment of this Cellular Tower will service not only remote area of Many Farms but also surrounding community members that live on the outskirts area of Rough Rock and Rock Point; and
6. The establishment of a cellular tower is vital to the emergency needs of the Carson Mesa community members, providing a critical safety net for school buses, employees, seniors, individuals with disabilities, Veterans, single parents with minor children, and essential service providers; and
7. The Many Farms Chapter fully supports the implementation of the Navajo Nation Broadband Plan and the Connect Diné Initiative, which include the construction of 5G towers, deployment of middle-mile and last-mile fiber networks, Low Earth Orbit (LEO) interim connectivity, and all other broadband infrastructure necessary to connect unserved and underserved Navajo homes, Chapter facilities, schools, and community anchor institutions across the Navajo Nation.

NOW, THEREFORE BE IT RESOLVED THAT:

The Many Farms Chapter hereby approves this request and respectfully directs the following actions to ensure the timely delivery of broadband service to the chapter area including Carson Mesa:

1. The Chapter requests that Assistant Attorney General Mel Rodis (DOJ), the Budget and Finance Committee (BFC) and Controller Sean McCabe (OOC), create and establish the required trust fund, in accordance with the provisions of CMY-28-24.

2. The Chapter requests that Navajo Nation release and make available to the Navajo Nation Broadband Office the \$77.8 million from the 521/RRR fund, originally allocated for broadband development, so that critical broadband infrastructure projects can begin construction and operation in accordance with the Navajo Nation Broadband Plan.
3. Navajo Nation Leadership Monitoring: The Chapter requests that the Honorable Speaker Crystalne Curley and Acting Attorney General Kris Beecher actively monitor the process and support this critical request.
4. Navajo Nation Executive Branch: The Chapter respectfully requests that the Executive Branch and the Legislative Budget and Finance Committee establish the necessary financial protocol to expedite the Many Farms Chapter's broadband needs at Peach Mesa.
5. The Many Farms Chapter hereby commits to providing full support for broadband development within its jurisdiction, including but not limited to: granting required permits and land clearances, approving rights-of-way, facilitating surveys and site access, and supporting funding applications or matching requirements necessary to implement all phases of the Navajo Nation Broadband Plan and Connect Diné projects—ensuring that broadband infrastructure, fiber deployment, 5G towers, and related facilities can be constructed without delay for the benefit of the Many Farms community

RESOLUTION OF THE CENTRAL NAVAJO AGENCY COUNCIL CNAC25-07-08

AN ACTION RELATING TO THE CENTRAL NAVAJO AGENCY COUNCIL; SUPPORTING THE NAVAJO NATION BROADBAND OFFICE AND ITS CONNECT DINÉ INITIATIVE, CREATED IN PARTNERSHIP WITH THE NAVAJO PEOPLE, IN THE IMPLEMENTATION OF THE NAVAJO NATION BROADBAND PLAN IN ARIZONA AND NEW MEXICO, INCLUDING BROADBAND OPPORTUNITIES, INFRASTRUCTURE DEVELOPMENT, AND ACCESS TO FUNDING.

WHEREAS:

1. The Central Navajo Agency Council is hereby established under the Legislative Branch of the Navajo Nation Government; **AND**
2. Pursuant to 28 N.N.C. Section 103 (D)(4), the Central Navajo Agency Council is formally recognized and established as a consortium of elected Chapter Officials representing sixteen (16) certified Navajo Nation Chapters, who agree to address and undertake common goals and interest for the benefit of the Central Navajo Agency Chapters; **AND**
3. The Central Navajo Agency Council was established to address the needs, concerns, and general welfare of its constituents and advocate on their behalf for successful implementation of viable agency projects; **AND**
4. Reliable, affordable broadband access is essential to the Navajo People's health, education, economic development, public safety, and self-governance; **AND**
5. The Navajo Nation Broadband Office (NNBO), in close coordination with the Navajo People, and its Connect Diné Initiative have a plan for implementing broadband and wireless infrastructure including 5G, across the Navajo Nation in a way that is equitable, sovereign, and community-led; **AND**
6. The Navajo Nation Broadband Plan, developed through NNBO and Connect Diné, outlines a phased strategy to build telecommunications towers, deploy fiber optic infrastructure, and establish open-access wireless and satellite internet services; **AND**
7. In both Arizona and New Mexico, the Navajo Nation is pursuing funding and regulatory approvals to support broadband expansion through programs such as the Broadband Equity, Access, and Deployment (BEAD) Program, E-Rate, American Rescue Plan Act (ARPA), and National Telecommunications and Information Administration (NTIA) initiatives; **AND**
8. These efforts target thousands of unserved and underserved homes, schools, health centers, Chapter Houses, senior centers, and other Community Anchor Institutions (CAI), and are structured to promote local employment, affordability, and long-term maintenance of broadband infrastructure; **AND**
9. The Connect Diné initiative supports community outreach, stakeholder education, permitting coordination, and the development of telecommunications policies to ensure Chapter-level participation and benefit; **AND**

10. The Central Agency recognizes the need for intergovernmental support to accelerate infrastructure timelines and ensure that no Chapter is left behind in the broadband expansion. digital transition.

NOW THEREFORE BE IT RESOLVED:

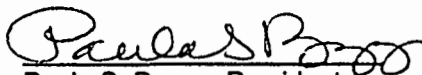

1. The Central Navajo Agency Council hereby approves and supports the Navajo Nation Broadband Office and its Connect Dine initiative, created in partnership with the Navajo People, in the implementation of the the Navajo Nation Broadband Plan in Arizona and New Mexico, including Broadband Opportunities, Infrastructure Development and Access to Funding.
2. The Central Agency Council hereby expresses its full and formal support for the Navajo Nation Broadband Office and its Connect Diné initiative, established in partnership with the Navajo People, in the implementation of the Navajo Nation Broadband Plan across Arizona and New Mexico.
3. The Central Agency Council supports the Navajo Nation's applications to federal and state broadband programs, including BEAD, and encourages the Nation to continue prioritizing underserved and unserved communities across both states.
4. The Council calls for continued cooperation and communication between the NNBO, Chapters, Navajo Land Department, Division of Natural Resources, Resources and Development Committee (RDC), the full Navajo Nation Council and the Office of the President and Vice President (OPVP) to resolve permitting, leasing, and siting issues.
5. The Central Agency Council affirms its readiness to support the siting of infrastructure, public outreach, and implementation activities necessary to ensure that broadband access reaches all communities within the Central Agency.

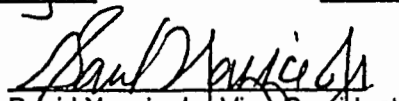

CERTIFICATION
